MORAVIAN COLLEGE  STUDENT WEEKLY

Volume LX

Bethlehem, Pa., Friday, November 8, 1957

Number 6

## Pajama Parade Begins At 7:30 Tonight

### College Receives \$2,000 From Esso Foundation

President Raymond S. Haupt has received word of a grant of \$2,000 to Moravian College from the Esso Education Foundation. The unrestricted grant to Moravian was made last week when Eugene Holman, chairman of the board for the Esso Education Foundation, announced financial grants to 345 privately supported colleges and universities for the academic year 1957-58.

The Esso Education Foundation, which was established in 1955 by the Standard Oil Company of New Jersey and a group of domestic affiliates, has announced that the 345 financial grants total \$1,332,760 for the current year. This contribution brings the total grants made by the Foundation in its three year existence to over \$3,600,000, with the District of Columbia and 42 states represented in the program.

The Standard Oil Company of New Jersey, the Esso Export Company, the Esso Research and Engineering Company, the Esso Shipping Company, and the Interstate Oil Pipe Line Company established the Esso Education Foundation in 1955 with initial pledges of \$1,500,000. The Carter Oil Company, another affiliate, became a contributor to the Foundation in 1956.

The assistance granted by the fund has included primarily unrestricted contributions to privately supported, regionally accredited, four-year undergraduate institutions. Other assistance has included capital funds, research and other grants, and grants to the National Fund for Medical Education, the United Negro College Fund, and the Council for the Advancement of Small Colleges.

### PAC Will Hold Discussion On Racial Problem

The Political Activities Club will conduct a panel discussion on racial integration on Wednesday evening, November 13. The event will start at 7:30 p.m. and will be held in College Hall, Rooms 9 and 10.

The topic of the discussion will be "The Integration Problem." Representing the views of rapid racial integration will be a local minister and also a member of the Pennsylvania Branch of the National Association for the Advancement of Colored People (NAACP). Speaking on behalf of the South's problems will be Mr. Dewey Stokes of the College's History Department, and also Mr. Jack Salmons, a Moravian College senior from Winston-Salem, North Carolina.

The moderator will be Dr. Otis Shao, Associate Professor of Political Science at Moravian.

The discussion is open to the entire college community and the public. Refreshments will be served following the program.

### Homecoming Events Are Rescheduled; Queen Crowned At Tomorrow's Dance

Pajama-clad frosh, floats, and the college band will be featured in the annual Homecoming Pajama Parade held tonight. All weekend events, with the exception of the Alumni tea, that were postponed from three weeks ago are slated to be held tonight and tomorrow.

The weekend will begin at 7:30 tonight with the Pajama Parade, followed by a pep rally and bonfire on the lower athletic field. Tomorrow morning on the South Campus soccer field, the girls soccer team will play Upsala's team. The Saturday parade will form at 12:15, proceed through town and arrive back at the Athletic Field in time for the 1:30 p.m. game between Moravian and Upsala. The Homecoming Dance which is the weekend's final event will begin at 9 p.m. During intermission the identity of the Homecoming Queen will be revealed as she and her court are presented.

#### Tonight's Parade

Tonight's Pajama Parade will form at North Campus at 7 p.m. The Queen and her court and Homecoming Queens from the past two years, floats prepared by the social organizations on campus, the Moravian College band and cheerleaders, and pajama-clad male Frosh, who are required to attend, will be in the parade. Results of the float judging which will take place tonight will not be revealed until halftime at tomorrow's football game.

#### Queen and Court

The five girls who were chosen to represent Moravian's royalty in a general student election held on October 16 will ride in open convertibles. They are Joanne Boyer, senior; Pat Conover and Janice Keve, juniors; Fran LeTowt, sophomore; and Ruth Mauch, freshman. Past queens who will also be riding in a convertible are Daneen Jones and Mitzie Pennington.

#### Parade Route

John DeMattio, chairman of the parade, has announced the parade route as follows: The parade will form at Locust and Monocacy streets in front of College Hall. It will move down Locust Street to New Street, right on New Street to Broad Street, down Broad to Second Avenue, left on Second Avenue to the bridge, and over the Hill-to-Hill Bridge to South Campus.

The correct marching order for both tonight's and tomorrow's parades is as follows:

1. The Moravian College Band.
2. Frosh Banner Car.
3. The Cheerleaders' car, carrying Ruth Mauch.
4. First Queen convertible
5. Sigma Phi Omega Float.
6. Second Queen convertible carrying Fran Le Towt.
7. Omicron Gamma Omega Banner Car.
8. Omicron Gamma Omega Float.

(Cont. on p. 3, col. 1)

Such questions as recipients, amounts, and methods of contributing are reviewed periodically on the basis of experience in this field of corporate giving. The advice and cooperation of educators is important in awarding the grants. Changes are made from

(Cont. on p. 3, col. 5)

### Rau Club Plans Lecture Series At First Parley

Introduction of officers, statement of membership qualifications, and announcements concerning future plans marked the opening business meeting of the Rau Science Club. President Mike Scrak presided at the meeting which was held on Tuesday, November 5, at 4:30 p.m. in room 3 of the Science Building.

The officers introduced were elected last spring and include; Gordon Arnold, vice-president; Marcia Morgan, secretary; Joseph Prorok, acting treasurer; Sophie Nicholas, acting U.S.G. representative. Dr. Albert E.H. Gaumer was introduced as the group's faculty advisor.

Scrak stated that persons interested in joining the society could secure membership applications from present members of the society or from members of the science faculty during the remainder of the week. He further announced that the Executive Committee of the society will meet later this week to appoint the membership committee which will handle the applications. To be qualified for full membership a person must have, or presently be enrolled in, twenty hours of science courses. Mathematics is included in these courses. Freshman and those others not fulfilling the qualifications may become associate members until such time as they have completed the necessary pre-requisites to full membership.

Among the plans for the future which were announced are several lectures for the society members and one or two demonstrations for the student body as a whole. The society has also been invited to attend the Twelfth Annual Eastern Colleges Science Conference at Wilkes College, on April 18, 1958. The last item to be announced was a picnic which is being planned for the last week of school in May, 1958.

(Cont. on p. 3, col. 5)

WHO WILL IT BE? Pictured from left to right are Fran LeTowt, Pat Conover, Joanne Boyer, Ruth Mauch, and Janice Keve voted by the student body as Moravian's best. One of these girls will be crowned Homecoming queen at tomorrow night's dance in College Hall.

### Parking Decals Required By Monday Under New Rules

Paul Cunningham, Superintendent of Buildings and Grounds, announced early this week that a new set of campus parking regulations will become effective on Monday, November 11. Cunningham also stressed the need for obtaining official campus parking decals.

The regulations are as follows:

1. **Identification**  
All students and college personnel are required to secure a decal from the office of the Superintendent of Buildings and Grounds. This numbered decal is issued without charge and entitles the driver of the car to the use of college parking facilities.
2. **North Campus Parking**  
Absolutely no parking will be permitted in front of Comenius Hall. Parking space in the rear of Comenius Hall is reserved for the President, Director of Development, Deans, Registrar and Comptroller, in general for those whose duties necessitate frequent driving in and out.
3. **Faculty Parking**  
Parking lot at Mercury and Greenwich Streets, north of Elizabeth Avenue.  
**Student Parking** — Lot below College Hall on Otis Place. Rear of Colonial Hall for dormitory students only.  
**Visitors** — Parking area for visitors—rear of Colonial Hall. Visitors whose visits are scheduled in advance should be supplied with air view indicating parking areas for visitors.

(Cont. on p. 3, col. 5)

### Career Monographs Are Now Available In Placement Office

Dean Richmond Myers, placement director, announced last week that the college has recently received a set of Career Monographs issued by the Institute for Research of Chicago. They contain detailed information about 250 possible careers.

A list of the careers covered, as well as the monographs themselves, may be consulted in the placement office. Those dealing with jobs for women have been filed with Dean Sartwell. No monographs will be circulated.

Early this week Dean Myers announced that registration for Bethlehem Steel's Loop course will close November 15.

Application blanks can be picked up in the placement office after November 18.

The blanks must be returned to the placement office by Thanksgiving. Under no circumstances is any candidate to take or send the blanks to the steel company.

There are no loop openings under the categories of Public Relations or Personnel.

## The New Parking Regulations . . .

Earlier this week an announcement came forth from the Superintendent of Buildings and Grounds concerning some new parking regulations. These regulations will supposedly go into effect next Monday on both the North and South Campus.

There is certainly no doubt in anyone's mind that the need of improved parking facilities for the college is primary. Last year a small improvement was made to the lot on the South Campus by its re-surfacing and the installation of parking ties. There was virtually no improvement to any North Campus lot except that of the faculty lot.

The new parking regulations, which have been reprinted by this publication, come after an attempt by the college to better control student and faculty parking. With the issuance of new rules and regulations each semester, the problem seems yet to remain unsolved.

We have few objections to the new regulations and think that for the most part they are sound and have logic behind them. We, however, think that though these new regulations may help the situation somewhat they will not cure it. The need for more space is eminent and has been for some time.

The final issue of *The Comenian* of last semester carried a front page story listing as summer improvements a larger North Campus parking lot. The article went on to state that the new facility was to be constructed directly behind the football bleachers in a space now vacant and used only for neighborhood sandlot softball. The lot was to have the capacity of one hundred cars thus greatly reducing the "on the street parking situation" so prevalent on the North Campus.

The spot seemed logical for a lot. It is both close to class buildings as well as athletic events. Certainly a parking place during an athletic event or a function at College Hall is at a premium. This additional lot could greatly reduce the parking strain.

Just what became of the plan for the summer construction of re-noved parking facilities on the North Campus is not known, at least to this publication. We do however feel that this should be brought under consideration again and its merits re-examined.

Moravian's enrollment is mostly made up of area residents who commute to and from classes by auto. A short walk about both campuses before or after a class will convince the doubter that more parking space rather than enforced new regulations are needed. We feel that with adequate space the regulations will take care of themselves.

## Another Homecoming Tonight . . .

This evening and tomorrow will find Moravian celebrating our postponed homecoming weekend. Although student enthusiasm has dropped to an all time low since the postponement, the Student Activities Committee is striving fully to plan all events which were canceled by the flu.

The low student opinion or the just plain lack of gumption by all involved is not typical of Moravian students. Bob Smith, chairman of the SAC and his hand full of helpers have had a hard job in the last three weeks. Little help had been afforded them for their task. It seems everyone is just too busy to donate even an hour of help to decorating College Hall.

Wednesday night, you editor walked into the gym and found only five persons actually working on the decorations. Almost three times this number were standing and watching in the wings with no other aparent pressing problems. They offered no help whatsoever.

Do not these and other students of Moravian understand that this is their dance? The decorating is being done for them. The present school attitude seems to be, "let the other guy do it. I have a test tomorrow."

Similar rumerors have been heard from the frosh dorm. The freshman seem to show a lack of interest in preparing for a parade tonight which is being held for their benefit. The freshmen, be they day or dorm, are reminded that they are required to attend all weekend functions in proper dress be it pajama parade or football game.

The frosh and the SAC are not the only groups to suffer this lack of true school interest. At a pep rally just one week ago had it not have been for the football team and the cheer leaders, there would have been no rally. Only fifty attended! Frankly it was a waste of time.

What's causing this lack of school spirit is not known. The cure however can only come within you the individual. These events must be supported. Reapprase yourself as an individual at Moravian. Are you doing your share of your job, not only in the academics but in extra curricular activities?

Tonight is yet not too late to at least give a hand at decorating College Hall for tomorrow's dance. Bob Smith and the SAC group would welcome all who will help and not those who merely only watch. Give them a hand to make this patched up homecoming weekend a real one, not a half attempt.

## Fantastic Science Fiction Made Reality By Russians

by Gene Salay

What seemed to be a subject fit only for fantastic science fiction is now a reality. Man has broken into space with an artificial moon. This feat was all the more startling to us because it was accomplished by the Russians. By this act the Russians have shown their supremacy in the scientific knowledge and, with all our wealth, we have lost this race. Let us hope that the Russian success will help to shake us from our complacency. While the United States can no longer build the first earth satellite, we can and must build the best satellite.

The United States has all the qualifications and means to have been the first country to build a successful satellite, but unfortunately we were not convinced of its necessity. Former Defense Secretary Charles Wilson thought it "a nice scientific trick," but of no real military value. Another fact that set us back was the competition between the services and their unwillingness to pool their knowledge and their resources.

While admitting that Sputnik has won prestige for the Russians, this must not discourage us, but

rather, knowing that our very survival is at stake, give us the needed encouragement to correct our mistakes. Remedial steps are already being taken. Congress has created the National Science Foundation to encourage basic research. Our resources must be pooled; the Navy, Air Force, and the Army must work together, not separately, to achieve our goal. It may take millions for research and the development of instruments, but we cannot afford to come out second best to the Russians in the scientific field.

According to Dr. Elmer Hutchin-son, director of the American Institute of Physics, we must give our children more disciplined scientific schooling. In Russian

Dear Editor,

I have always thought that the purpose of a pep rally is to inject spirit into the fans and to show the team that they are supported strongly by their friends and classmates.

On Friday, November 1, Moravian College held its first pep rally. The band was there, the cheerleaders were there, and the team was there. Oh yes, the fans were there also. About 50 of them were there. Approximately 50 out of a possible 750.

This is the most disgusting turnout for any pep rally that I have ever seen.

Where is our college spirit? Don't the students of Moravian College care to cheer for the boys who are on the field, giving it all they have, in order to bring a victory to Mo-Mo?

There is always the excuse that the weather was bad. If the weather was so bad, why did the dance show three times as many students at it as the Pep Rally?

If I were Coach Calvo on Friday night, I wouldn't have even taken the trouble to introduce the team.

It's about time the students at Moravian wake up to the fact that those eleven men on that field are playing for a college that they want to be on top. They are playing with all their hearts. They are practicing in the cold and the rain. But what are they receiving in return? Nothing except an empty cheering section.

Let's get the ball going. We have a hustling ball club. They're doing their job, let's do ours.

Respectfully submitted,  
Bob Sottile

### An Open (and Shut) Letter to the Student Body

To begin with, I would like to clear up a much discussed feature article which appeared in the October 25 issue of *The Comenian*. It is my article on "varied opinions on the failure of Homecoming Weekend" to which I am referring. I feel that I owe an apology to those students whose opinions did not appear, and also an apology to those students whose opinions were expressed, but with deletions. But don't feel too bad, gang, my article was edited also, which I think put a different slant on the whole story.

I'd like to continue where my article came to an abrupt end. In summarizing I found that (1) most students said "the announcement came too late" and (2) although "late" it was "beneficial." Let's face facts, the postponements were for our benefit. Let's bear in mind also that what was done was done toward curtailing the possibility of one of us here at Moravian College increasing the number of deaths in the Lehigh Valley area. Sure, I grant that a number of people were inconvenienced because of the "short notice" involved, but aren't we all a little guilty of procrastination. Are we a group of crybabies, who have to be pampered for four years during our growing up period, or are we grown up individuals who can take a setback if one should happen to come along? I'm sure we are the latter.

A great man once said, "If you  
(Cont. on p. 3, col. 5)

## Homecoming Schedule

as revised by the S.A.C.

### Friday, November 8

- 7:00 p.m.—Line up for parade on Locust St. (Frosh must be attired in pajamas and carry banners. All floats should report early to get proper position for line of march.)
- 7:30 p.m.—Parade begins; a bonfire and pep rally will follow on the lower athletic field, North Campus.
- 9:00 p.m.—Omicron Gamma Omega open house-dance for all Alumni and brothers at the OGO House.  
—Decorating continues for dance in College Hall, following pep rally-bonfire.

### Saturday, November 9

- 8:00 a.m.—Classes thru till end of fourth period. (12:05 p.m.)
- 10:00 a.m.—Women's Soccer game with Upsala on South Campus.
- 12:10 p.m.—Lunch for dormers.
- 12:15 p.m.—Line up for parade. (Floats should again be early and follow the same line of march as Friday's parade.)
- 12:30 p.m.—Parade begins.
- 1:30 p.m.—Football game: Moravian vs. Upsala
- 9:00 p.m.—Homecoming Ball in College Hall.
- 10:30 p.m.—Crowning of Homecoming Queen at dance.

## Homecoming Events . . .

(Cont. from p. 1, col. 5)

9. Third Queen convertible carrying Janice Keve.
10. Pi Mu Float.
11. Fourth Queen convertible carrying Pat Conover.
12. Phi Mu Epsilon Float.
13. Fifth Queen convertible carrying Joanne Boyer.
14. TEKE float.
15. Sixth convertible carrying past queens, Mitzie Pennington and Daneen Jones.
16. Alpha Epsilon Pi Float.

The frosh will take positions behind each float in the parade.

When the parade reaches South Campus, the male freshmen will serenade the co-eds. Then the parade will march back to North Campus for a pep rally on the lower athletic field. It will be held around a bonfire constructed by the frosh.

### Schedule Change

Classes will be scheduled as regular tomorrow morning with the one exception of fourth period. It will be moved up from its regular time of 12:35 to 11:15 thus eliminating the second chapel period of the morning. The class period will conclude at 12:05 p.m. The times were moved up so as to provide time for those participating in the parade to lunch and get to their required position in the line of march.

Luncheon for those dorm students eating on campus will be held at 12:10 p.m.

The same parade will form again tomorrow at 12:15 in front of College Hall. This time the route will be via Broad St. to Main and then back to the North Campus. The same float and car positions will be maintained.

During the halftime ceremonies of the football game, winners in the float contest will be announced and the five candidates for Homecoming Queen will be introduced.

### Orchestra

The Costanzo Orchestra will provide music for the Homecoming Dance tomorrow night from 9 p.m. to 12 p.m. The highlight of the dance will be the coronation of the Homecoming Queen by Miss Pennington, Queen of 1956. Bob Smith, chairman of SAC, will introduce the Queen and present to her a gift from the student body.

### Dance Theme

The theme of the dance is "Moments to Remember" and decorations will feature many aspects of college life. The bandstand will resemble a typical student's desk, complete with desk lamp and a girl's picture. The backdrop is a huge window containing a view of Colonial Hall, representing the view seen from Comenius Hall. Brian Saderholm is chairman of the bandstand committee.

### Decorations

Joe Jardot, who is in charge of the wall and ceiling decorations, plans silhouettes of college scenes to be placed in various spots around the hall. The traditional blue and grey crepe paper ceiling is also planned.

Table decorations which are being arranged by Pat Conover will consist of footballs, confetti, and a collection of College literature including Comenians, football programs, and alumni publications.

### Free Punch

The Alumni Association is making plans to serve punch to all attending the Dance. Members of the committee preparing the refreshments are as follows: Mr. Richard Groman, chairman; Mrs. Marjorie Sherry; Miss Patricia Mecherly; Mrs. Joan Taylor; Mr. Robert School; Mr. Arthur Dannenberger; and Mr. Lewis Lukehart.

Alumni couples who will serve the punch are the following: Mr. and Mrs. Richard Groman, Mr. and Mrs. Lewis Lukehart, Mr. and Mrs. Ronald P. Sherry, Mr. and Mrs. Albert Buralli, Dr. and Mrs. Frank Weaver, and Miss Mitzie Pennington and Mr. Roger Kimball.

### Postponement

Homecoming was originally scheduled to be held on October 18 and 19, but was cancelled due to the large number of flu cases in the Bethlehem area. On October 17 the Administration on the advice of Dr. Karl H. Hahn, college physician, called off the Homecoming Dance and Freshman participation in the parade. Almost immediately the fraternities and sororities decided to remove their floats from the parade, and the SAC announced plans to crown the Homecoming Queen at half-time of the football game and hold a dance on November 1. Later these plans were changed, and the whole Homecoming Weekend was rescheduled for November 8 and 9.

## Russian Science . . .

(Cont. from p. 2, col. 4)

schools physics is taught from the fifth grade. An Allentown paper asked the question, "Is America making full use of its brain-power?" of many local educators. Most of them agreed that we are not, and one answer to education beyond high school could be the establishing of junior colleges. Many students cannot afford to go to college, and yet it is the responsibility of our country to develop all the talents of its people. The number of scientists and research workers could be greatly increased if students would be given a technical education beyond the high school level.

While Sputnik no longer is sending radio messages and may no longer be of value, early this week the Russians have sent up their second earth satellite. This satellite is not only bigger than the first, but it also was sent up higher into the air, and it contains the first space traveler, a dog. In this way the scientists hope to learn the effects of space on living creatures.

Through the exploration of space beyond the earth's atmosphere, the scientists hope to learn about conditions in space that affect flight. High altitude flight is already possible. Research planes are being built that will fly 100 miles above the earth. Space research will help provide the answers to the many questions the scientists must solve before space travel is a reality.

One of the first practical jobs the satellites could perform would be to help observe the pattern of weather formation on earth, thus enabling meteorologists to make weather predictions well in advance. This would be of special benefit to agriculture.

The United States must recover supremacy in the scientific field, but our goal is not "technological imperialism," that is, drawing of all human knowledge into the service of the state. Our goal is liberty, not only for ourselves but for all the nations of the world.

## The Mail Box . . .

(Cont. from p. 2, col. 5)

haven't anything nice to say about a person don't say anything at all." This letter will not prove contrary to my way of thinking, because I wholeheartedly go along with what that man said.

I, and a number of students interviewed who feel the same as I do, don't go for this business of "telling off" the administration for every action they take. For one thing, they are our superiors, and if I didn't learn anything else in my 20 plus years, I did learn respect for authority. Maybe I'm wrong though, maybe that's what we're supposed to do when we get to college: if we don't like what the President or the Dean says or does, we tell them off. To be able to express our opinions is a privilege which we enjoy, but I think we should credit the administration with having a little more foresight than we felt they showed over the Homecoming dilemma.

With a little effort on our part, I'm sure we can make a huge success out of this Homecoming Weekend.

Sincerely yours,

Gene Salay

P.S. I have now "washed my hands." In case anyone wants to write a letter in answer to mine, I just want them to know they will get no reaction from me. This can go on indefinitely. C'est la fin!

## Campus Chatter

by Ginny Dancy

Being an elementary education major and trying to learn how to march in the class for phys. ed. in the elementary school isn't as easy as it sounds. At least it got pretty mixed up Monday when Gail Harding was calling the directions. When she called "Backward, march" some started going backward on the first word, some on the second. Consequently, we had people marching backward into those marching forward, and oh, what a mixed up mess!

This week we were criticizing a story in journalism class which stated that there was no room in the armed services for the half-lazy, half-talented. Dr. Burkhardt disagreed by saying that these people do have a place—"I know, I was one of them." But why admit it?

Heard about the little episode at the Philadelphia Student Concert last week. Seems that the Moravian contingent, who were sitting in the balcony, got locked out at intermission time. The only way to the balcony is by outside stairs, not by those from the lobby. So, when they got up the stairs and found that the door was locked, they did the next best thing—they went up the fire escape and into the men's room! It's a good thing Norm Hauser was there to clear the way for the girls.

The cry was "Water!" Monday night in the Phi Mu Epsilon sorority room, where the sisters were attacking the walls with hot water and scrapers, knives, or shovels to get the old wall paper off. Well, AEPi survived the process last year, so courage, girls.

I guess Bethlehem police were kind of disappointed last Friday night when they came up to North Campus all prepared to escort the Homecoming Parade, which someone informed them we were having—no parade! Better luck to night.

Not to be facetious, but we heard that the reason the Vets withdrew their float from the parade was that some one ran into it! Evidently it was stored in a garage, and some woman driver who probably didn't have her glasses on drove right in. And wham!—no more float.

The other day we passed Miss Williams' office and happened to notice a bouquet of flowers in front of her door. Nan Baker, who was with us, said "Oh, oh, someone must have gotten an awfully poor mark in that English test."

Hope everyone's getting ready for Homecoming weekend. We'll be looking for you with your "girlfriend, boyfriend, or what have you," as Brian Saderholm would put it.

Thought you might be interested in a couple of letters from Dear Sir. The first is addressed to the Los Angeles Bureau of Vital Statistics: Gentlemen:

(Cont. on p. 6, col. 2)

## Parking . . .

(Cont. from p. 1, col. 3)

3. South Campus Parking  
Faculty Parking — The area directly west of the chapel is reserved for faculty and administrative staff.  
Student Parking — Extreme southwest of campus in area of tennis courts. Lot at foot of Bartow Street, south of Church Street between Main and New Streets.
4. Violations  
Cars parked in designated college parking areas without identification of decal will receive proper warning. Continued offense will result in the car being towed away under the supervision of the Bethlehem Police Department. The owner will then have to pay two charges before the car is released.  
Cars improperly parked within college areas.  
Cars parked on campus in areas other than those designated herein.
5. Fines  
First Offense — \$1.00 will be charged if fine is paid within 48 hours. After 48 hours the fine will be raised to \$2.00 and count.  
Further Offense—Fine will be charged and offender will be referred to the Dean.  
All fines are payable at the Business Office.

## Esso Grant . . .

(Cont. from p 1, col. 2)

year to year in order to assist directly a representative group of privately supported schools and yet to encourage all such schools to seek support from other sources.

In awarding grants the Esso Education Foundation has made the following statement; "In the conviction that business organizations must do all they can to ensure the growth and strength of the nation's educational institutions, Jersey Standard and its affiliates intend to continue to search for the most effective and appropriate ways to lend such support. The Esso Education Foundation provides a permanent organization to implement that support."

## Houndettes Soccer Opener Tomorrow With Upsala Girls

by Daneen Jones

Soccer will be initiated as a woman's varsity sport at M.C. Sat., Nov. 9, at 10 a.m. on the field behind South Campus. The team will play host to Upsala.

Soccer is a strenuous game which calls for perfect timing, excellent teamwork, and hard, fast action. The object of the game is similar to that of field hockey and the positions are the same (back field, line, goalie, wings). In order to score you must get the ball—which is about the size of a volleyball—into your opponents' goal. A player may use any part of his body to move the ball except his hands.

Coach Emily Butner had a hard task set before her when she chose to play soccer as a fall sport to replace hockey. Most of the girls had only a vague knowledge of the sport and had never actually played it. However, after many long hours of practice and a great deal of patience on the part of both the coach and the team, the girls have come up with what looks like a winning team.

Coach Butner is very optimistic about the game Saturday and about soccer replacing hockey permanently. "Enthusiasm and spirit are running high and I've got a great group of freshmen upon whom I'm depending."

As the football team also plays host to Upsala in the afternoon, a number of Upsala students are expected to attend both events. Coach Butner expressed the desire for the student body of M.C. to support its soccer team and to show the girls that they are behind them by coming out and cheering the team on to victory.

Members of the team and their positions are: Mary Vezzoli, Hinda Shorr, Sophie Nicholas, Connie Hanks, Carla Nowack, Nancy Warren, Betsy Blum, and Jane Merchant, backs; Judy Laning, Vickie Kokolus, Barbara Senaca, centers; Linda Hofstetter, Joanne Albrecht, wings; Phyllis Zwarych, Kitty Helles, inners; and Ruth Helmich, goalie.

Hound Harrier Hank Sunyak streaks over the finish line in 27:53 to finish second after Albright's Dick Thrasher. Moravian eked out a 27-28 win over Albright at last Saturday's meet.

## Cross Country Team Boasts 2-1-1 Slate; Edges Albright 27-28

By John Layman

Coach Kuklantz led his Hound Harriers to a tie and a win this week, as the Greyhounds edged the Albright Lions 27-28, and then were tied by the Muhlenberg runners by a 28-28 score.

On Saturday afternoon, the Moravian Cross Country Harriers nipped the Albright Harriers 27 to 28 in a race that was close all the way. The course was a rugged hilly four and one half miles. The race started out with two of the Moravian runners taking the lead and setting a fast pace. The Albright team started to move out at about the mile mark. The Hounds were setting a pace which they knew was efficient enough to keep up with Albright.

### Moravian Takes Lead

Then Hank Sunyak of Moravian took the lead and held it for approximately two miles, with Dick Thrasher of Albright close on his heels. In about the last hundred yards Thrasher managed to pass Sunyak, who was followed by Bob Fatzinger and John Jacob, both of Moravian. The next Moravian Harrier was Jack Reidmiller, who came in eighth, with Dennis Bleam of Moravian coming in tenth, thus clinching the second win of the season for the Hounds.

So far this season the Moravian Harriers have done well, considering that this is the first year for

most of the runners. Jack Reidmiller, a junior, and Richard Gross, a sophomore, are the only upperclassmen. The Harriers from Albright were mostly upperclassmen and had experience from previous years.

Richard Thrasher of Albright set the Moravian course record with a time of 27:45 minutes.

### Scoring

The finish order is as follows: 1. Richard Thrasher, A., 27:45; 2. Hank Sunyak, M., 27:53; 3. Bob Fatzinger, M., 28:13; 4. John Jacob, M., 28:48; 5. Don Seltzer, A., 29:02; 6. George Mack, A., 30:03; 7. Ron Stuber, A., 30:04; 8. Jack Reidmiller, M., 30:36; 9. Walter Delham, A., 31:26; 10. Dennis Bleam, M., 31:50.

Other finishers were: 11. Frank Papolia, A., 32:45; 12. Jay Miller, A., 32:50; 13. Rod Rathbun, M., 33:04; 14. Richard Gross, M., 33:34; 15. Roy Foltan, M., 33:50; 16. John Layman, M., 34:17; 17. Louis Andre, A., 36:26.

	Total
Moravian	2 3 4 8 10—27
Albright	1 5 6 7 9—28

### Muhlenberg Meet

The Moravian Hound Harriers and the Muhlenberg College runners run to a 28-28 tie on Tuesday of this past week. The meet, which was held on Muhlenberg's Cedar Park course, was 4.6 miles.

Hank Sunyak of Moravian came across the finish line first in the fast time of 24:13. This was the first meet in which Sunyak achieved first place. In all of the previ-

(Cont. on p. 5, col. 3)

## Moravian Record Now Tallies 1-2; Victory Sought Tomorrow

Turning the tide from two losses to one win last Saturday, the Moravian Greyhounds moved into the win column with a 19-6 score. The victims were the Albright Lions. Playing on a muddy field didn't seem to bother the Hounds at all as they played better offensively and defensively than in any of their previous games this season.

The Greyhounds' line proved to be nearly impenetrable throughout the first quarter as they limited the Lions to six yards on the ground. The Albright squad started a drive late in the second quarter but it was to no avail as the Hounds checked the advance.

The Hounds, who showed a neat two-fold attack, picked up 193 yards on the ground and 137 yards in the air. They far outshined the Lions who netted only 137 yards rushing and 38 yards aerially.

Starting off on the wrong foot for Albright, their quarterback Al Benisky fumbled on the first play of the game, with Moravian recovering. The Hounds, however, were not able to turn this into a score. Later in the period, Moravian end Dave Kratzer, recovered another fumble on Albright's 15 to set the scene for M.C.'s first touchdown. On the third play, Rod Miller, senior fullback, took advantage of a hole in the right side and streaked into the end zone untouched. Hollendersky missed the conversion.

In the second stanza Albright staged its first serious threat when they advanced 52 yards in eight plays before being repulsed on the Hounds' three yard line.

Junior guard Gus Rampone made a fumble recovery of Frank Sudock's error on the Lions' 26 with a minute remaining in the half. One play later Moravian was leading 12-0 as quarterback Tony

Matz connected a pass to freshman end Johnny Olson who crossed over the goal line from the 3. The extra point attempt by Jeff Gannon was low.

The third M.C. score came after only three minutes of the third period. After eight plays Hollendersky bulled over for the tally from the one yard line. The big play of that series was a pass from Tony Matz to end Dave Kratzer which netted the Hounds a 50 yard gain. Hollendersky's second conversion try was good and gave the Hounds a 19-0 bulge.

In the third quarter, the Lions scored their lone tally at the expense of the Hound second- and third-string team. Their T.D. climaxed a 90-yard drive which took 13 plays. Gerry Bricker, Albright quarterback, lead the attack gaining 49 yards on six carries, the last of which was the T.D. drive from the one. The Lions scored with only a half minute remaining in the quarter. The conversion attempt by end Jim Heyder was partially blocked by Moravian.

Statistic wise the Greyhounds' passing attack paid off quite well as they completed five of eleven. Matz, who heaved six, connected for three with gains of 50, 26, and 13 yards. Matz's alternate, Nick Cuttic, threw five, completing two for a total again of 48 yards, while two were incomplete and one was intercepted. Miller and

(Cont. on p. 5, col. 2)

Top photo: Rod Miller (19) and Joe Esposito (18) peer at a tussel of gridders in one of many fumbles at last Saturday's contest. End Dave Kratzer (23), extreme left, eyes ref's signal.

In lower photo, end John Olson (31) prepares to ward off a swarm of Albright tacklers.

# Intra-mural Golf Crown Copped By Tom Volko; Edges Brother

Tommy Volko became the new Intra-mural Golf Champion last Friday when he defeated his brother Bobby 1-up in an 18-hole match at the Bethlehem Municipal Golf Course.

Intermittent showers and heavy winds made the 6,950 yard water-soaked golf course very difficult to play. However, both golfers played very well, Tommy carding a respectable 79 and brother Bob an 81. Bobby put up a surprisingly good showing against his steady and more experienced brother. Tommy got off to a quick 3-up lead by winning the 2nd, 3rd, and 4th holes with pars, but Bobby, not to be outdone, came back with wins on numbers 5 and 6 and birdied the tricky no. 7 hole to even the match. At the turn the match was still even. Tommy missed an opportunity to take a 1-up lead on no. 10 when he 3 putted and they halved the hole with bogeys. However, he came back with a win on the long wind-swept no. 13 when Bobby pushed his second shot into the sand trap. Tommy's 1-up lead was short-lived as Bobby came back to win the rolling par 5-15th hole and again the match was all even. On the 17th hole, a very difficult, well-trapped dog leg to the left, Tommy appeared to have a sure win, but Bobby hit another of his excellent recovery shots 1 foot from the pin and dropped the putt to halve the hole. Experience seemed to pay off on the 18th hole when Tommy calmly dropped a 3-foot putt for his par 4, while Bobby missed the green on his 2nd shot and had to settle for a bogey 5.

Bob Volko, right, congratulates his brother, Tom, left, after his victory over him in the intra-mural golf meet.

Bobby, a member of the baseball squad, is a newcomer to the Moravian golfers. He proved to be a giant killer in the tournament as he mowed down Buddy Soloff, one of the better freshman players and upset Fritz Toner, one of the pre-tourney favorites, in a match that ended in a sudden death play off on the 19th hole.

In winning the tournament, Tommy Volko became the 5th player to win the Fall Intra-mural Tournament.

# Frosh Hazing Fate Decided Wednesday At Olympics Ala Mo

The second annual Olympics Ala Mo will be held on Wednesday, November 13, beginning at 7:30 p.m. in College Hall. The four women's classes will compete in a series of contests at this traditional event. It will be climaxed by the sophomore-freshmen tug-of-war which decides the fate of freshman hazing.

Each girl participating in the Olympics should wear her class colors, which are as follows: seniors, blue; juniors, purple; sophomores, yellow; and freshmen, grey.

Some of the events which will be held are basketball throw, tennis ball throw, wheelbarrow race, standing broad jump, Indian leg wrestling, three-legged race, and costume relay race.

The Women's Athletic Association, sponsor of the event, is also planning to obtain some type of loving cup to be given to the winning class. This year the junior class will be striving to maintain its championship status.

The tug-of-war is a traditional closing event of sports day. If the freshman class loses they must wear their dinks until Christmas. If the sophomore class loses the tug-of-war, they must wear signs reading "We lost the tug-of-war" for one day. This is the first year that the latter penalty will be observed.

Committees for the events are as follows: equipment, Dora Thomas and Phyllis Zwarych; refreshments, Ann Corbett and Marcia Morgan; and publicity, Connie Hanks and Margie Neusch. Daneen Jones is general chairman of the event.

## Albright Game . . .

(Cont. from p. 4, col. 5)  
Hollendersky were the leading ground gainers for the Hounds.

The victory was the first of the season for Moravian whose record is now 1-2.

It was the fourth straight triumph over the Lions from Reading and their sixth loss of the season. They've yet to win, but have tied once.

# FOOTBALL PROFILES

NICK CUTTIC, TONY MATZ, RUSS CONOVER

Quarterbacks

This week Football Profiles spotlights three of the Moravian Hounds quarterbacks: Tony Matz, Nick Cuttic, and Russ Conover.

Tony Matz a 5'8", 170 pound junior from Reading, Pa. is in his third year with the Hounds. He plays the outfield in baseball for Moravian.

Tony's football days began at Reading High School where he played in the quarterback and halfback slots. He also played baseball and earned three varsity letters during his high school days.

Tony's greatest thrill comes when Moravian beats Albright. "It's a new thrill everytime," said Tony.

Besides football Tony's interests pertain to all sports. He is majoring in Math and plans to become a teacher. Tony belongs to the Omicron Gamma Omega fraternity, and the Varsity M Club.

When asked what he thought the teams' chances were against Upsala, He replied, "Very good!"

### Cuttic

Nick Cuttic, a 5'9", 160 pound, junior, for the Hounds, hails from Frackville, Pa.

Nick's football career began back at Frackville High School where he played quarterback. He also participated in basketball and baseball. Nick earned a total of ten Varsity letters. He received the award of Outstanding Athlete of his class, and other honors from the Rotary Club. Nick was chosen for the Northern All State team from Schuylkill County.

The greatest thrill for him was the opportunity to come to college under a scholarship.

His interest are sports and dancing. Nick is majoring in Chemistry and plans on a teaching and coaching career. He is a member of the Sigma Phi Omega fraternity of which he is Vice President, the Triangle Honor Society, and Varsity M. Club.

Nick was asked of the Team's chances against Upsala. He replied, "With our outside speed

and mobility of the line, we should beat them to the punch and thus get the edge."

### Conover

Russ Conover who is a 5'10", 172 pounder, comes from Alpha, New Jersey. This is his second year with the Hounds.

The football career of Russ started at Phillipsburg High School in New Jersey. He ran the 440 yard dash for the track team. He earned three Varsity letters.

Russ remembers his greatest thrill in his Senior year, in the annual classic clash between Phillipsburg and Easton High on Thanksgiving Day, in which his team, as the underdog, pulled a 7-6 upset over Easton High.

His interest, is Rock and Roll music and sports. He is majoring in History and plans a career in teaching.

When asked of the team's chances against Upsala, he replied, "They haven't had too good a season, but now that all the members of our team are in good shape, I think we should defeat them."

# Greyhound Gossip

by Dick Steiner

In a belated Homecoming contest tomorrow, the Greyhounds will attempt to even their record at two wins, two losses (and we might add, two unplayed and two yet to play.) In recent years Upsala's Vikings have given Moravian athletic squads trouble in nearly all sports. Two years ago they battled a really great Mo-Mo 11 to a 6-6 tie, and last year they upset us 6-0 in football. Two years ago they ruined our hopes for an NCAA tourney bid by upsetting us in baseball. We obtained a measure of revenge in the diamond sport last spring by edging them 2-1 in a contest which nearly turned into a riot. Look for the Greyhound gridsters to even the football score with the Vikings Saturday afternoon.

Two of the outstanding athletes to graduate from Moravian in many years staged a rather remarkable rivalry before their graduation. Bob Jones and Ron Gift, both graduates of the class of '57, matched each other's efforts in the classroom, on the athletic field,

and even got married at the same time. Each were blessed with a child at nearly the same time last year, and many felt this was a fitting climax to this long and friendly rivalry. Apparently, however, these guys don't know when to quit. The latest word from the grapevine has it that both the Joneses and the Gifts are eagerly awaiting arrival number 2 in their homes. This is fine with me, but will these guys ever give up?

**FROM HERE AND THERE:** The Greyhound Harriers are surprising everyone with their winning ways. According to reliable sources, several of the boys have motorcycles hidden in the bushes along the course. Helps cut down those times a lot. . . . Did you know . . . a. that Ted Williams' .389 batting average was the highest since he hit .406 in 1941? . . . b. that Greyhound teams won over two-thirds of their athletic contests since last year? . . . c. that the New York Yankees may be moved to Saudi Arabia? . . . . Harvey Gillespie, Moravian athletic director, took up golf several years ago for relaxation. Gil now shoots a very fine game, and if it weren't for baseball in the spring, Gil would probably be giving the guys on the golf team a run for their money . . . .

See ya next week.

## Cage Practice 20 Out For Team At Greyhound's

With the season slated to get underway on Dec. 4, basketball practice began at Moravian yesterday with twenty men battling for berths. The Greyhounds open with P.M.C.

Moravian will be led by Assistant Coach Paul Marcincin until football seasons ends, and Head Coach Rocco Calvo takes over.

Back again this season to spark the Greyhounds is captain Fritz Toner, 5-foot-9, who has averaged more than 15 points a game in the past two years. This will be the fourth season as a starter for the little playmaker.

Four junior lettermen from last year's team that won 15 and lost 8 will return. Joe Keglovitz, 6-foot-5, and Russ Causley, 6-foot-2, both of whom saw some action as starters last year, will be back along with Bill Davis and Lorenzo Martin.

The loss of three starters by graduation will be felt and poses the biggest building problem. Gone are Bob Jones, Skip Fegely, and Joe Heard. Jones tallied 1,402 points during his career. He had averaged more than 17 rebounds although he stood only 6-foot-1.

Fegely, a sharpshooter, kept hot on Jones' heels in the scoring department with 1,278 points in four years. Heard, known for his defensive ability, developed a good scoring punch in his senior year when he counted 289 points.

Among the hopefuls going through drills at the Moravian campus are seven sophomore returnees from last year's junior varsity.

# TEKE's Take Intra-mural Football Title From Sigma Phi

The TEKES nipped the intra-mural football crown from Sigma Phi Omega fraternity in an evenly matched contest on the lower athletic field. The game was played Wednesday afternoon.

Although the game was evenly matched most of the way the Sigma Phi team showed the TEKES by scoring early in the first quarter by passing the opening kickoff for a TD. The extra point was run but to no avail.

The powerful TEKE line plunged back with renewed strength after the initial shock of the opening score to push Sigma Phi down the field to about the ten yard stripe. From there TEKE's Dick Roth flipped a short pass to Fred DeFrank for the tying TD. The TEKES extra point was no good.

Turning point of the contest came when Sigma Phi was inches from a first down on the five yard line when a penalty called the play back fifteen yards thus ending their only threat to re-score.

The TEKE took advantage of the penalty by capturing a fumble. In the next two successive plays passes ate up the necessary yardage for the first downs.

From about mid field TEKE back Bobby Volko got off a long but shaky pass to Dick Roth who scored easily for the winning TD. The extra point attempt was no good, but the score was enough to give insurance to the TEKE cause. The remainder of the ball game was scoreless.

The intramural football championship playoffs began on Monday, when Sigma Phi Omega downed the OGO's 18-7. On Tuesday afternoon the TEKES stopped the Hurricanes 15-8, the game being protested to no avail.

Monday's game saw Sigma Phi take the lead in the second period and they never relinquished it. Actually the first threat of a score came in the first period when Sigma Phi's quarterback LaBar lofted a long pass 35 yards downfield to Pyscher. However the OGO defense held and Sigma Phi lost the ball on downs. In the second period LaBar again unleashed a long aerial which Fatzinger grabbed and raced across the goal for the first score. The point after touchdown was missed and Sigma Phi lead 6-0.

In the third period Sigma Phi capitalized on a 15 yard penalty against the OGO's. LaBar quickly passed to Tom Meder for a first down and two plays later he spotted Cavanaugh in the end zone for the second tally. The P.A.T. was again missed and Sigma Phi led 12-0.

Near the end of the quarter the OGO passing attack began to click. Quarterback Van Natta hit his receivers on three successive plays and then connected to Jim Howell for the score. Gerry Heintz carried the ball around end for the P.A.T., making the score 12-7. Sigma Phi put the game on ice deep in their own territory. The line headed by Bob Fish busted through the Hurricane forward wall to trap Grayhill in the end zone for a two point play.

in the last period with LaBar hitting Freiler with a long pass for a first down. He then picked out his favorite receiver, Pyscher, who made a nice grab for the final score.

The second game of this single elimination playoff featured the TEKES and the Hurricanes. The TEKES opened the scoring in the first period when quarterback Bob Volko dropped a 30 yard aerial in Ron Shikora's arms for the TD. The P.A.T. play was stopped by the Hurricanes and the TEKES led 6-0. However, the Hurricanes came back to tie up the game quickly on a long pass from Grayhill to Ben Melusky. In the second period the TEKES pulled ahead to stay: quarterback Volko looked for a long receiver and found Fred DeFrank just over the goal line for the second TD. Volko then connected to Jim Gallagher to make the P.A.T. play good and the TEKES led 13-6. Near the end of the quarter with the TEKES deep in their own territory after a penalty, the Hurricane line trapped Volko in the end zone for a safety. Thus, the score at half time was 13-8.

The final tally came in the third period as the Hurricanes were

# Spaniel Field Trial Held Nov. 15 - 16; Dr. Jones Attends

November 15 and 16 are expected to be busy days for Dr. Jones and his Moravian College Field Trial Club as they plan to participate in the annual field trial held at Split Rock Lodge, Lake Harmony, Pennsylvania.

Licensed by the American Kennel Club, the trial is open to English Springer Spaniels and Cocker Spaniels. There will be three stakes: open all-age English Springer Spaniels, open all-age Cocker Spaniels, and gunner-handler stakes.

Judges for this year's events will be Mr. Ed Elting from Chicago, Illinois, and Mr. Carl Shattuck from Dover, New Jersey.

Dr. Jones said that the Split Rock grounds will offer dog owners and handlers a "really sporting course." The cover might best be described "as the kind of cover one would pick to hunt if he had his choice of ground," he said. Grassy fields, punctured by blueberry and other low bushes, some briar and woods close enough to keep the handler on his toes when his dog goes in that direction. In addition, there are stone walls, with brush covering them, to be negotiated. It will be an easy walking course and good roads are available to each part of it.

The Moravian Club, which is sponsoring the events, currently has six active members.

## Tale of Two Cities!

Among Western Hemisphere cities with the largest per capita enjoyment of Coca-Cola are, interestingly enough, sunny New Orleans and chilly Montreal. When we say, "Thirst Knows No Season," we've said a cheerful mouthful.

So don't take any lame excuses about its not being hot enough for Coca-Cola. Forget the temperature and drink up!
