

USG May Vote \$5 Increase To Student Union Fee

The possibility of increasing the student union fee from \$20 to \$25 a year was discussed by members of the United Student Government at an informal meeting Tuesday night. Robert P. Snyder, Director of Development, discussed the plans and problems involved in the project.

Since only nine representatives were present (18 are needed for a quorum), the official proceeding, including a possible vote on the proposed increase, was postponed until next week's regular meeting.

Snyder and John Woltjen '59, student chairman of the union committee, recently attended the 36th Annual Conference of the Association of College Unions in Miami Beach, Florida.

As a result of this conference, a special USG meeting had been planned to discuss in detail the plans for Moravian's student union. As a quorum was not present, Snyder confined his discussion to information based upon the recently released building report by Porter Butts, Student Union Consultant.

Snyder noted that the report has been essentially approved by the Student Union Planning Committee, and will be recommended to the school trustees for approval in the near future. The projected date for completion of the project is approximately November, 1960.

According to the report, "building costs would probably range from \$604,358 for the minimum area designated to \$662,478 for

the maximum area suggested. This figure is based upon a cost of \$22.00 per square foot plus an addition of approximately 30 per cent for furnishings, architect fee, etc."

Last year the USG agreed to levy an assessment of \$20 per year for each student. The board of trustees agreed to match this fee.

Under the financing plans developed, Plan "A" calls for the present \$20 fee, a plan that would finance the building in 27 years.

Big Saving

Plan "B" calls for a \$25 fee, an increase of \$5, which would finance the building in 19 years. The plan, Snyder explained, would save approximately \$124,000 in interest fees. In addition to this advantage, he said, it is doubtful as to whether the USG could borrow the necessary \$600,000 for the longer period of 27 years.

A third plan calls for a \$30 per year assessment per student. Here, however, only three additional years are gained, with a corresponding slight saving in interest fees. The plan to be adopted will be discussed at next Tuesday's meeting.

Seventeen Missing

In view of the fact that 17 organizations were absent from the meeting, Peter French, USG president, issued the following statement:

"It is a shame that these organizations do not find it sufficiently important to make an effort to see that they are represented at their student government meetings.

(Cont. on p. 4, col. 2)

Senior Queen Candidate Pix Due April 24

Pictures of candidates for Senior Farewell Queen must be submitted to the Social Activities Committee for judging by Friday, April 24, at 5 p.m. Any girl who will be escorted to the annual affair is eligible for the honor.

Pictures may be of any size. Newspaper clippings will not be accepted.

The name and hometown of the girl and the name of her escort must be printed on the back of the picture. Pictures may be given to Miss Leheis in the main office, South Campus; Mr. Kilpatrick, North Campus; or Kathy Donchez, chairman of the queen contest.

Five finalists will be chosen from the pictures submitted by next Friday. These girls and their escorts are then expected to attend the queen's dinner at 6:30 p.m. the evening of Senior Farewell, Friday, May 1. The dinner will be held in the South Campus dining hall.

At this time, the two band leaders for Senior Farewell, Matt Gillispie and the leader of the Lester Lanin band, will choose the queen. Her identity, however, will not be announced until intermission at the dance.

'Springtime' Is Theme Of '59 Spring Festival

"Springtime" will be the theme of the traditional Spring Festival, sponsored by the Women's Activities Committee, to be held on the afternoon of Sunday, May 10, in the back of South Campus. Miss Moravian of 1959 will be crowned at this time.

A meeting of the senior women will be held soon to nominate candidates for the queen's court.

The court will consist of the queen and six attendants elected by the women of the college. The attendants will then choose escorts from the leaders on campus. This is a departure from last year's proceedings when the girls did not have any escorts.

The daisy chain of freshman girls and the honor court will also take part in the procession. To go along with the theme of Springtime, there will be both spring and impressionistic dances.

The Moravian College Ensemble will sing songs of spring and the Alma Mater.

At the conclusion of the program there will be a receiving line of the queen and her court. This will be followed by the traditional Blossom Tea and open house in Main and South Halls.

Bartolacci Wins Oratorical Contest At Thursday Convo

"Today work is a foul word, because we don't consider it as fun," said first prize winner Anthony T. Bartolacci, speaking in the John Beck Oratorical Contest. The event was held in Johnston Hall during an all-student convocation yesterday.

Bartolacci's topic was, "Work—An Ascending Escalator." Second prize was awarded to Peter L. French for his speech on "Listening to a Different Drummer." Joseph Tratnyek won third prize with an address on the topic, "Causes of Juvenile Delinquency."

Other contestants included Theodore Lekorenos, who spoke on the topic, "A Real Basis for Complaint," and James Maconald whose topic was "Trust in Nuclear Disarmament."

President Raymond S. Hauptert presided over the convocation.

Judges for the contest were Mr. John Freefield, an alumnus of Moravian and a member of the Liberty High School English Department; Dr. Roy D. Hassler, Dean Emeritus of the College; and Miss Martha Leys, a member of the Language Department of Moravian Preparatory School.

Bartolacci discussed what he termed as the "weird philosophy" of modern times that one tries to get as much as he can for as little effort as possible. He said that college graduates must "learn to love and enjoy the work of the professions they enter."

French stressed that in modern society "conformity is the important stuff." He then described "Joe Conformity" and pointed out that his actions were determined by their acceptance among his associates. He urged the audience not to criticize one who does not conform since "each must walk at his own step."

Tratnyek said that the job of adults in combating juvenile delinquency was to correct those conditions depriving children of a good environment.

Tickets Still Available For 'Spring Serenade'

Tickets for the Inter-Sorority formal dance tomorrow night, April 18, may still be obtained for \$3.00 per couple. They may be purchased from either Mary Lou Clewell, Jean Hudak, or Dora Thomas.

The dance, at the Hotel Traylor in Allentown, will have the theme "Spring Serenade." Music from 9 to 12 midnight will be provided by Parke Frankenfield and his five-piece combo from Easton.

Decorations will include centerpieces of spring flowers and tapers in harmonizing shades of pink and lavender.

Open to all students, the dance is preceded by the traditional dinner, at 6:30 p.m., limited to Alpha Epsilon Pi and Phi Mu Epsilon sorority sisters and their escorts. Following the dinner, sorority officers for the year 1959-1960 will be announced and presented with floral bouquets in their sorority colors.

Outgoing officers of Alpha Epsilon Pi are Kathy Werst, president; Mary Lou Clewell, vice-president; Joanne Mazur, treasurer; Sandy Yaeck, recording secretary; and Joyce Buchecker, corresponding secretary.

Outgoing officers of Phi Mu Epsilon are Jean Hudak, president; Dora Thomas, vice-president; Phyllis Zwarych, treasurer; Bar-

bara Roberts, recording secretary; and Diane Stoltz, corresponding secretary.

New Dormitory 'Stone Laying Slated May 2

The cornerstone of the new dormitory west of Johnston Hall will be laid in a ceremony to be held Saturday, May 2, at the annual Alumni Homecoming. Also featured that day will be a panel discussion for alumni on "What I Would Like My Alma Mater To Be in 1979."

Discussion Is Innovation

The cornerstone laying will precede the panel discussion, scheduled for 10:30 a.m. in Johnston Hall. The discussion is an innovation this year. Robert S. Lukens, assistant to the general manager of Bethlehem Steel Corp. and a member of the board of trustees of Moravian College, will serve as moderator.

Robert P. Snyder, Moravian College Director of Development, will be speaker for a post-luncheon meeting in the women's campus chapel, directly followed by the annual business meeting of the Alumni Assn. Luncheon will be at 12:15 in the women's dining hall.

Informal Coffee Hours

Designed to appeal to both men and women graduates of the combined institutions of Moravian College, the program for the day lists informal coffee hours on both the College Hill and Church St. campuses, with registration desks in Johnston Hall and the alumni board room. Mrs. John Detthof, Bethlehem, is heading the group of hostesses for the day.

At 4 p.m. a punch hour in the George Washington Room, Colonial Hall, will provide the final social gathering for the day. Mrs. Sidney Pace, president of the Allentown Alumnae Club, is arranging this event.

Other scheduled activities are morning golf, the afternoon baseball game with Muhlenberg, and tours of the women's campus to include the new Main Hall residence and the excavation and restoration work in progress in the single brethren's house, the college's Colonial Hall.

A schedule for reunion class pictures has been announced by Dorothy Ruyak, director of Alumni relations with Friday and Saturday evenings designated for special five-year reunions.

Alumni are also invited to attend the student Senior Farewell formal dance in Johnston Hall on Friday evening, May 1.

Frosh, Sophs Elect Needs, Jacobs; '60 To Try Again

Re-election for the president of next year's senior class will be held Monday, due to a tie in ballots cast last Monday and Tuesday. John Jacobs and William Needs were elected presidents of the present sophomore and freshman classes.

The junior class election for president resulted in a tie with both Griffith Dudding and William Keller each receiving 59 votes. Others elected as officers of the junior class are: James Martin, vice-president; Jane Koegh, secretary; John Casey, treasurer; and Paul Noonan, USG representative.

Elected to serve with Jacobs were: Barry Gaal, vice-president; Marcee Ammend, secretary; Joseph Castellano, treasurer; and Russell Simonetta, USG representative.

Jacobs is a general studies major from Bethlehem, Pa. He has been on the cross country team for two years. He was a member

of both the wrestling and indoor track team in his freshman year. He is a member of Tau Kappa Epsilon fraternity, as well as a member of the Varsity M Club.

Those elected with Needs for the freshman class are: Edward Ressler, vice-president; Barbara Snyder, secretary; Barbara Brunner, treasurer; and Robert Sallash, USG Representative.

Needs is a pre-theological student from Dover, Ohio. During the past semester he served as president of the freshman class. He is a member of Omicron Gamma Omega and Pi Mu fraternities.

Better Representation Needed

Student government, as we've said before, has a good many inherent faults. Many of these, however, can be offset by a good working form of representation—something for which Moravian is definitely at a loss.

Moravian's system, according to a listing we came across recently, can be classified as a combination of organizational and non-organizational councils—with definite emphasis on the former.

The result has been a group growing larger, more unwieldy and more inefficient every year. Evidence has been given by gross demonstrations of knowledge of Robert's Rules by various "pressure groups" in recent years and in the past few weeks by the difficulty encountered in raising a quorum.

In addition to the excessive number of voting delegates (this year: 27), representation problems are posed by the rules set up. The constitution allows representatives from "each accredited and chartered club," as well as the officers and representatives of the boards of fine arts, music and publications, each academic class, the faculty and administration.

As a result of these rules, the freshman class, numbering around 200, has an equal vote with the Spelunkers, Modern Language Club and other small, seldom-meeting clubs. And due to the "board" setup, the newspaper, yearbook, literary magazine, journalism fraternity and Board of Publications get ONLY ONE combined vote, and likewise the choir and band get only one combined vote.

But disregarding the unequal representation, the system favorably provides so-called specialists who are directly responsible to the organizations they represent. These special interest groups however, have proved they are not concerned with campus-wide issues when there is nothing on the agenda that will affect their organizations. In such cases, little responsibility is felt, and, as has been shown lately, few bother to show up for meetings.

The present system, then, considering both general disadvantages and the in-practice adaptations and results, has in reality turned out to be ineffective and cumbersome.

What other types can be obtained? A "community government" includes representatives of groups of faculty, students and administration — a student-faculty council — with almost equal representation.

Another system is that of the non-organizational council. Here the representatives are elected from the student body at large. This type may have just the opposite effect of the organizational, however, in that there may be no student concern whatsoever about who wins the elections, and there may be a lack of the specialized knowledge necessary to its proper functioning.

Juniata follows such an "at-large" setup, although all candidates vie to be either officers or chairmen of nine individual committees. In this manner a good deal of excitement, including big election rallies, has been generated.

Lehigh follows a system of combining the organization and non-organization setups, electing half from the student body and letting major organizations name the other half.

In other combined forms organizations representatives are present at meetings in an advisory capacity—to offer necessary relative opinion. In Moravian's case this would work out very well on money matters.

A student-faculty committee was set up early in the year to study the need for revising Moravian's constitution—which will be a necessity if the representation is to be changed. The committee has now bogged down under the guise of waiting for word from a student union planning committee as to which organizations will be included in the union building.

However, ideal systems, we feel, are ones which include organizations only in advisory capacities, as do the majority of those listed above. Procrastinating further, or until the unnecessary "word" is received, is only going to heighten the confusion and problems inherent in the system as it now stands.

Foreign Study Fellowships Now Available To 200

Two hundred fellowships for graduate study in 15 foreign countries will be offered by foreign governments and universities through the Institute of International Education for the academic year 1960-61.

The institute has announced that applications for the fellowships will be available on May 1 and will be accepted until November 1, 1959.

The scholarships cover tuition and varying amounts of maintenance in universities in Austria, Denmark, France, Germany, Iran, Israel, Italy, the Netherlands, Sweden, Switzerland, Canada, Brazil and Mexico.

Students applying for Italian university awards or Austrian, Danish, French, German or Netherlands Government awards may apply for a Fulbright travel grant to supplement their scholarships. Two additional awards, offered by an American foundation, are for any country in the Far East, South or Southeast Asia, and Africa.

Eligibility Requirements

General eligibility requirements are United States citizenship, a Bachelor's degree or its equivalent before departure, language ability sufficient to carry on the proposed study, and good health. A good academic record and demonstrated capacity for independent study are also necessary.

Preference is given to applicants under 35 years of age who have not had extensive foreign experience. While married persons are eligible for most of the above described awards, the stipends are geared to the needs of single grantees.

For further information and application forms, prospective applicants should write to the Information and Counseling Division, Institute of International Education, 1 E. 67th St., New York 21, N.Y.

Faculty, Trustees Guests At Service In Chapel Sunday

Dr. John R. Weinlick, professor of historical theology at Moravian Theological Seminary, will be the guest speaker at a special worship service for the faculty and trustees of the college, held in the Borhek Memorial Chapel 11 a.m., Sunday, April 19.

Special invitations have been sent to all the members of the faculty and trustees. The college chaplain will conduct the service.

Dr. Weinlick, who has taught at the seminary since 1944, was formerly pastor of the Fairview Memorial Church in Winston-Salem, N. C. He is the author of a biographical report on "Count Zinzendorf" and is also president of the Moravian Historical Society in this area.

The service on Sunday is under the sponsorship of the Sunday Chapel Board of Moravian College consisting of the chaplain and students of the college. Student members are Terry Jones, Burke Johnson, Elmer Harkel and Paul Heist.

The services are open to all students and faculty members.

Water System, Artifacts Are Found In Colonial Hall Diggings

Excavations around Colonial Hall, South Campus, have led to the discovery of an extensive water system, facilities for water storage and collection, and several artifacts dating back to the eighteenth century.

Under the Table

by Nan Gingher

They say "there's nothing new under the sun," and that's just about it around this college.

Doesn't anybody ever do anything? Sure, we can talk about the inter-sorority dance, the Blackfriars' play, the choir flitting here and there, and other numerous excursions of the great active students of Moravian College. And we will talk about them because we have no other choice.

Is it wrong to ask for revolution, no matter how asinine or stupid or ridiculous or "juvenile"? We're sick of asking for change or progress. Why complain about policies, action, non-action, or apathy? But total apathy can exist if no unrest exists at all. We're not beat generation people seeking excitement or escape or release from frustration. But aren't you tired of hearing who's engaged, married, or otherwise, or who did or got what, who chopped whom, and who couldn't decide what?

There's really no solution. And you can't chalk one up to that trite spring fever jazz, though it would be different if somebody would cram seventy-five people into the Emsee phone booth, or put Bergie's car on top of the Science Building.

Why doesn't somebody start a Miss Benigna contest, or begin an ivy planting ceremony on south campus? Why not make Spring Festival an orange blossom centennial-type occasion, with child relatives of coeds sprinkling blossoms gaily on the heads of important men - on - campus, frolicking joyfully on the rolling green? And can't you just think of about a MILLION people you'd love to nominate for Mr. Moravian? All of this would add greatly, you realize, to collegiate atmosphere around here.

Why not attire graduating seniors in bermudas, white, of course, with Tyrolean hats or something? How about giving an honorary to the student with the best Florida tan?

Sprig has sprug, the grass is riz, ah wunda where the flowas is? So let's get going, children, and frolic o'er the campi!

This column has come to you directly from under the booth.

An extensive water system, consisting of channels, trenches, water gates, and lead pipes, was found at the rear of the building. The pipes replaced earlier wooden pipes, which supplied water to the building. The bottom of each channel is covered with a carefully laid flagstone floor. The lead pipes were found directly underneath the flagstone.

Two Theories

There are two possible theories about the purpose of this water system. One is that it was a cooling system for dairy products and other foods. This is supported by the discovery of fragments of an earthenware butter crock and the fact that it is located adjacent to the kitchen. The other theory is that it is some type of sanitary system.

1791 Water Line

The water line which has been determined is the same as the one indicated on a 1791 rough diagrammatic sketch of the water distribution system for the period.

The other artifacts found recently were an 1808 penny and a clay pipe bowl. At the east end of the building, a stone cistern was found last week. It has been hidden beneath the porch for an undetermined length of time. It was probably used to collect rainwater for domestic usage during early Seminary time.

The Benchwarmer

by Neil Eskolin

Three unearned runs spelled disaster for our promising Greyhound nine on Tuesday afternoon. Had it not been for that fielders' nightmare of a first inning, Lafayette would not have won it after the score was reverted to the previous inning when the game had to be called in the eighth. Bill Hershey had the whole situation in hand in that first inning and after the first man struck out, he was all set to mow down the rest. Sloppy fielding, however, changed his plans. Four big errors by four different players within the next five minutes gave Lafayette just the edge (3 runs) they needed to put it in the bag.

Hershey did as well as anyone could have done as he whiffed seven men in the first three innings and two more over the next four. Lafayette, particularly well known for their offensive strength as shown by their 40 runs in three games thus far this season, put on a good show getting several solid clouts. Moravian, by scoring 8 runs on 11 hits, gave an impressive performance when compared to the accomplishments of Lafayette's previous two foes, Penn and Muhlenberg, who scored a combined total of just three runs. This incidentally brings us to an interesting point . . .

In their pre-season statements for the local papers and so forth, Coaches Gillespie and Garscar were quoted as saying that the Hounds shouldn't do too badly and that they are a team with "Good field and no hit." Were they talking about the same team that scored 21 runs on 33 hits in their first three games? And the same team that committed 11 costly errors in the same three games? It seems as though the coaches got their stories a little backwards. The Hounds have showed so far, that they are a team with lots of hit and not much field.

In the all important hit department there seem to be four men carrying the brunt of the load. Up till yesterday's game, it was George Hollendersky doing the most damage with 8 hits in 12 trips. Bill Hershey, who started off slow against F & M, came alive in the next two games to come up with a total of 5 for 12 along with freshman shortstop, Hal Rice, who also had 5 for 12. Tony Matz, last year's MVP is hitting the old spheroid at a 4 for 9 clip. This, although it's still early in the year, doesn't impress me as a team with "no hit." Likewise, it doesn't impress me as a team with "good field."

Nevertheless, the Hounds should have another fine season, perhaps equaling the 17-4 record of a few years ago. If the hitting continues and the fielding tightens, there will be mighty few teams who will be able to boast that they beat the Hounds in 1959.

The tennismen started out the season on a rather dismal note. LaSalle, more or less known to be a Moravian "patsie," shook up the troops by nearly shutting out our "net-hounds," 8-1 and PMC followed suit by a 6½ - 2½ score. It seems that one of the major factors is that the team did not get the opportunity to get in top condition as shown by their fast starts and late fades.

The boys had already planned to win at least one match and that over St. Joseph's—who were really pathetic. But since St. Joe's abandoned the noble sport last week, the Hounds are going to have to look for another pushover.—Could this pushover be Haverford tomorrow? It's rumored that the Haverford team is weak this season, as they only have three national champions. Oh well, keep in there fighting men, it might not do any good, but keep fighting anyway.

See ya on the bench.

Stickmen Dump Scranton As Hershey, Holly Star

Led by the pitching of Bill Hershey and the stickwork of George Hollendersky, the Hound diamondmen rolled to their second straight victory of the young '59 season, besting Scranton University 7-3.

The game was played last Thursday on the Royal's home field. In addition to his fine throwing, Hershey also garnered three safeties in five trips to the plate.

The Royals collected four of their seven hits and all of their runs in the bottom of the first frame. From this point Hershey pitched commendable ball to gain his first win this year. He had a fine 5-1 slate last season.

Score On Singles

Singles by Hollendersky, Fred Donatelli, and Hershey accounted for two Moravian runs in the top of the first. Then came Scranton's only real threat of the day as three Royals crossed the plate before the end of the inning.

After knotting the score in the second, the Greyhounds went ahead to stay in the fourth. Two hits, two walks, and a double steal produced two runs. Shortstop Hal Rice closed out the scoring with a two run double in the ninth.

Tennis Court Lock Combinations

New locks have been placed on the six tennis courts. The combinations for the locks are as follows:

- Courts 1 and 2—19-33-4
- Courts 3 and 4—29-1-15
- Courts 5 and 6—11-25-39

Leopards Outslug Hounds As Errors Prove Costly

by Bob Fatzinger

Moravian's two-game win streak came to an abrupt halt on Tuesday as the Leopards from Lafayette College outslugged the Hounds 11-8. Again it was the hitting of George Hollendersky and Bill Hershey which kept the Hound offense alive. This plus frequent passes issued by the Leopard hurlers, kept the Hounds in contention throughout the game.

Had it not been for shoddy fielding on the part of the Hound defense, a major upset might have resulted. The Hounds committed six errors, accounting for four unearned runs. Four of these bobbles led to three unearned runs in the very first inning.

Hershey fanned the leadoff batter but shortstop Hal Rice fumbled Chuck Kline's grounder, thus opening the gates for the nightmare. Rice then muffed Bob Kessler's double play ball and both runners were safe. Both advanced when John Bowman allowed Hollendersky's snap throw to get by.

They then scored on a single to center by Don Nikles. A walk to Willie MacDonald and Charlie Gilbert's wild throw on another potential double play ball gave the winners their third run.

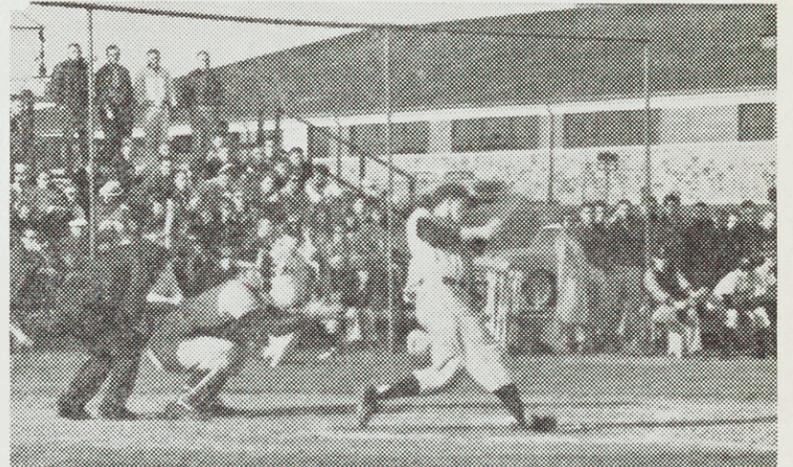

With the bases jammed and no one out, the Hounds managed only one run in the bottom of the initial frame. Walks to Russ DeVore, Tony Matz and Gilbert loaded the sacks. Hollendersky then popped out, but Fred Donatelli

walked to force across DeVore. Hershey then fouled out and Bowman fanned to end the threat.

The Leopards scored twice more in the third after which the Hounds retaliated in the bottom of the same frame as they came up with four big runs to tie the score on a walk to Matz, singles by Gilbert and Hollendersky and a titanic grand slam home run by

Bill Hershey over the left center-field fence over 400 feet away.

The Hounds added one in the fourth and two in the sixth. The last two came as a result of the circuit clout by Hollendersky to close out the scoring for the Hounds. Meanwhile Lafayette added a run in both the fourth and the fifth and two each in the sixth and seventh frames.

Second baseman Charlie Gilbert swings for the fences before a large crowd of fans at Tuesday's struggle with Lafayette. Gilbert singled seconds later and with George Hollendersky (on deck) and Tony Matz, rode home on Bill Hershey's grand slam. Photo by Nagle.

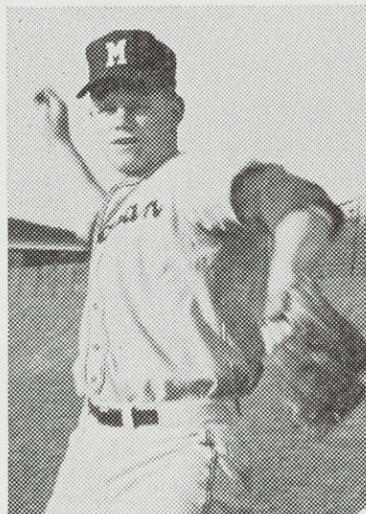

SPRING SPOTLIGHT

Bill Hershey—Baseball

Leading hitter and pitcher of the Greyhound baseball team and fleet-footed halfback of the football team—this is Bill Hershey of Moravian sports prominence.

"Hersh," who stands 5' 11" and weighs 180 pounds, is a Pennsylvania Dutchman from Lititz. He played baseball for four years in high school and gained his greatest thrills from winning the batting championship of his regional conference for three years.

Bill, a business administration major, is vice president of Kappa Phi Kappa, a varsity "M" club member, and a member of Omicron Gamma Omega fraternity.

He has been on the football team for two years at Moravian and is playing his third year of Varsity baseball. Last year, "Hersh" knocked down the fences with a .510 batting average, ranking seventh in the nation among collegiate batsmen. Bill was also the Hounds' star moundsman with a 5-1 record.

When asked for a statement about the team, Bill said that he believes "We have passed our toughest game of the season (with Lafayette) and should go on to have a great year."

Netmen Get Slow Start, Lose To LaSalle, PMC

The Moravian College tennis team dropped their opening two matches last week to La Salle and Pennsylvania Military College respectively. The Netmen, not in top form due to restricted practice sessions in the gym resulting from the bad weather, were handed lopsided losses on both occasions.

La Salle College whipped the netmen 8-1 at Philadelphia Rifle Club in the opening tennis match for both schools. Dan Simon and Les Lazarowitz averted a shutout for the Greyhounds by beating Bill Kauffman and Jerry Tiedeken in doubles 6-1, 6-3.

PMC beat the Hounds 6½-2½ last Friday at Chester. Simon and Hal Cole won in singles to earn 2 points and the netmen picked up the other ½ pt. when the last double match was called on account of darkness.

LaSalle Summary

Singles: Noga (L) def. Lipkin 5-7, 6-0, 6-0; Bacher (L) def. Lazarowitz, 6-3, 1-6, 6-2; Gillespie (L) def. Simon, 6-1, 6-3; Kauffman (L) def. Cole, 6-2, 6-4; Tiedeken (L) def. Staller, 1-6, 6-2, 6-3; Guffre (L) def. Spaugh, 6-3, 6-2.

Doubles: Noga and Guffre (L) def. Lipkin and Cole, 9-7, 6-1; Simon and Lazarowitz (M) def. Kauffman and Tiedeken, 6-1, 6-3; Kohlmon and Palena (L) def. Spaugh and Staller, 6-3, 6-1.

PMC Summary

Singles: Schwartz (PMC) def. Lipkin 9-7, 6-1; Karnosuta (PMC) def. Lazarowitz 6-1, 4-6, 6-3; Simon (M) def. Leno, 9-7, 5-7, 8-6; Cole (M) def. Wersinger 6-4, 6-4; Menaker (PMC) def. Staller 8-6, 6-3; Coe (PMC) def. Spaugh 6-2, 6-2.

Doubles: Schwartz and Wersinger (PMC) def. Lipkin and

Cole 6-0, 6-3; Menaker and Coe (PMC) def. Spaugh and Staller 6-3, 6-2; Simon and Lazarowitz (M) vs. Karnosuta and Leno, called darkness in first set.

Compulsory Sophomore Tests Scheduled For Next Tuesday

The compulsory sophomore English proficiency test will be given on Tuesday, April 21, at 11:35 a.m. in Johnston Hall, according to Dr. Alan Herr, Chairman of the English Department. All sophomores must take the test, along with those juniors who did not take it last year.

The students will be given a list of several topics. They may use their own title, but must write upon a topic that is listed.

RAU Elects Neidengard Prexy For '59

Ted Neidengard was elected president of the Rau Science club at the meeting held recently.

Others elected to serve with Neidengard are: vice-president, Bob Kern; secretary, Patricia Boyle; treasurer, Jim Houser; USG representative, Joel Leeb.

Neidengard is a junior, pre-medical major from Clifton, N. J. He is a member of Tau Kappa Epsilon fraternity.

Kern is a junior, pre-medical major from Bethlehem, Pa. He was a member of the wrestling team for two years and also was a member of the indoor track team. He is a member of Tau Kappa Epsilon fraternity.

Miss Boyle is a member of the Political Activities Committee. She was a news reporter for the *Comenian* and is a member of Phi Mu Epsilon sorority.

Hauser is a junior, pre-medical major from Bethlehem, Pa. He is a member of Tau Kappa Epsilon fraternity.

Leeb is a sophomore, pre-professional major from South Orange, N. J. He has been a cheerleader for the last two years, as well as being a member of Tau Kappa Epsilon fraternity.

'Much Ado About . . .'

By Dave Schattschneider

The general consensus of opinion around this office at the present time (where there are four people busily at work) is that

nothing of very great interest or importance has happened since the return to school from Easter vacation.

However, someone did happen to notice that there are some different colored bricks

around the lower area of the Science Building. No one yet has figured out how or why this is. If you're interested enough to take a look around, please let us know the results of your snooping.

Spring has finally come for the North Campus diners. As of this Monday night Refectory frequenters were permitted to attend the evening repast without the usual striped shirt, polka-dot tie and checked jacket clash combinations. Ah—relief at last. (Lest this appear misleading—sport shirts and slacks are required).

But it seems that nothing else of great importance in the extra-curricular line has happened. Indeed, our alma mater has appeared to be quite free of such stunts as stuffing people into 'phone booths, throwing water on policemen and so forth. Perhaps this reflects our more mature attitude toward such carryings on or perhaps we are merely lazy. Anyway, its interesting—a subject for discussion at least.

Of course, with the big Senior Farewell weekend coming up there will be plenty for everyone to do—and plenty for everyone to enjoy too it might be added.

Don't be too relieved yet. There is a joke issue on the way. When, where and how no one is quite sure, but then such things are supposed to be surprises anyway.

Well—have a good week, whatever you are!

Meteorologist From Penn State Guest Speaker Next Tuesday

Professor C. L. Hosler of the meteorology department of Pennsylvania State University will be guest speaker on campus on Tuesday, April 21. He will deliver talks at 11:30 a.m. and 2 p.m. in Johnston Hall, rooms 9 and 10.

Dr. Hosler is the author of 26 scientific papers and has led research for various departments of the federal government. In addition he has served as a consultant to the President's Advisory Committee on Weather Control and has also been an industrial consultant.

Conducts TV Program

He has delivered 150 talks on the weather in this country and Canada and conducts a television program on weather, daily over Channel 10 in Altoona.

Dr. Hosler's talk at 11:30 a.m. will be on the general topic "Our Atmosphere," and at 2:00 p.m. the subject will be "Cloud Physics," which will include a discussion of cloud modification and weather control by this means.

Beaupre Finds MC Speech Attitudes Are Highly Rated

Water Beaupre, assistant professor of drama and speech, represented Moravian College at the golden anniversary of the Speech Association of the Eastern States, at the Henry Hudson Hotel in New York City last weekend.

Over 30 sectional meetings were held, being divided in the fields of drama, debate, rhetoric, public speaking, oral interpretation, speech and hearing correction.

Beaupre concluded that as a result of these conferences, he feels Moravian College and its attitudes of the administration towards speech and public speaking courses, ranks highly as compared to other colleges.

An interesting fact gathered from the conference was a report of the Intercollegiate Poetry Reading Association. It said that the most read poetry dating back fifty years was that written by Bethlehem-born Steven Vincent Benet.

Dr. Green, of Queens College stated that the highest integrated music, dance, and drama are Jerome Kern's musical "Showboat" and the "West Side Story" now playing on Broadway.

Both of these talks will be general enough in approach to be of interest to all students.

It is the hope of the college and the physics department that the student response to Dr. Hosler's visit will encourage invitations to be extended to experts in other fields of academic interest to visit our campus throughout the school year.

Pi Mu Elects Ghodes Prexy, Daneker, VP

Robert Ghodes, a pre-theology major from Durbin, North Dakota, was elected president of Pi Mu pre-theological fraternity at a meeting held Tuesday, April 14. Elected to serve with Ghodes were Robert Daneker, vice-president; Paul Graf, secretary; Fred Harberg, treasurer; Jerry Witbro, U.S.G. representative; and Ted Wilde, chaplain.

A member of the junior class, Ghodes has been in Pi Mu for three years. He served as a member of the Religious Emphasis Week Committee this past year.

Daneker, who is majoring in English, is from Palmerton, Pennsylvania. In addition to being a member of Pi Mu, he sang with the college choir for two years, and served as the group's secretary-treasurer during 1957-1958. He is in his junior year.

A resident of Sturgeon Bay, Wisconsin, Graf is a sophomore English major. He is also a member of the college choir and served on the Religious Emphasis Week Committee this past year.

Harberg, a junior English major, is from Watertown, Wisconsin. He has served on the Religious Emphasis Week Committee and is a freshman dorm proctor.

Witbro, majoring in pre-theology, is a junior from Green Bay, Wisconsin. Witbro has served as a photographer for the last issue of *The Benigna*.

Wilde, from Green Bay, Wisconsin, is presently an exchange student studying at the University of Munich.
