## Statue Presentation Slated For Comenius Ceremony

The publicity office released this week preliminary plans for the observance of Comenius Day March 28 on the campus. Highlighting the program will be the dedication of a statue of John Aмос Comenius, the gift of Charles University at Prague, Czechoslovakia.

Dignitaries of the Moravian Church and of a number of American colleges and universities will be present at the ceremonies.

Thomas E. Jones, former president of Earlham College and national consultant of the Association of American Colleges and Universities, will deliver the major address at a formal convocation to be held in Johnston Hall on the afternoon of March 28. Speaking on "The Challenge of Heritage," he will set the keynote of the ceremonies.

At the convocation, the statue will be officially presented to the college by the Rev. Radim Kalfus, Secretary of the Inner Council, Czechoslovakian Province of the Moravian Church, and Dr. Jaroslav Prochaska, rector of Charles University.

Following the presentation, the ceremony will adjourn to the site of that statue, where the gift will be accepted by college president Raymond S. Hauptert and chairman of the Board of Trustees Dr. Frederick P. Stocker.

At the ceremony, greetings will be issued by the Czechoslovakian ambassador, His Excellency Miloslav Ruzek. An honorary degree will be presented to Admiral Ernest M. Eller, United States Navy, retired.

A banquet will be held on the evening of March 28 at the Hotel Bethlehem, to be attended by dignitaries participating in the ceremonies, alumni and officials of the college.

At this function, Dr. Arlington Nagle, president of the Alumni Association, will present the annual Alumni Association Comenius Day Gold Medal Award to an alumnus whose name will be announced shortly.

The award, instituted in 1941, is presented to an alumnus of the college whose achievement in his particular field has been outstanding.

Speaker at the banquet will be  
(Cont. on p. 6, col. 2)

## Religion-In-Life Plans Disclosed

College chaplain Rev. Henry A. Lewis announced this week preliminary plans for the observance of Religion-In-Life Week from March 15-17.

Guest lecturer for the program will be Dr. David J. Maitland, associate professor of religion and chaplain at Carlton College, Northfield, Minnesota.

Maitland will address students on the topic of "A Christian Vocation" at a convocation Tuesday, March 15.

Other events will include programs sponsored by fraternities, sororities and service groups. Maitland will also address students at voluntary chapel services.

He has served as chaplain at Beloit College and the University of Wisconsin.

## Honor Deadline Is Postponed; '61's Apply Now

The Honors Committee recently agreed to postpone the deadline for receiving final papers from honors candidates, committee chairman George Tyler, professor of classics, said this week.

The due date has been shifted from noon April 19 to noon April 25. The postponement was made at the request of directors and candidates in the honors program.

"Students and directors," Tyler explained, "had both pointed out that the earlier deadline would make it impossible for students to spend the vacation time on preparing their final draft."

Oral examination of honors candidates are now being arranged and will be conducted between April 25 and May 15.

Tyler announced also that the period for submitting applications for next year's program extends from now until April 15. The program is open to juniors whose cumulative grade point is at least 3.0 and whose grade point in the field in which they wish to do honors study is at least 3.3.

Folders describing the program may be obtained by students from Dean Rader's secretary.

## College Group Participates In Foreign Affairs Debates

About ten Moravian College students and a number of local citizens have been participating in a weekly "Great Decisions" discussion group at the college. The program is sponsored primarily by the Foreign Policy Association of the Lehigh Valley.

Discussions such as this are being carried on concurrently throughout the country. In the Lehigh Valley there are 26 groups operating, with a total of 500 persons participating. There are ten student groups among them.

Topics discussed by the groups include matters of foreign policy and international relations. Recent topics covered were "The Communist Timetable for 1960 . . . What Odds?" "Red China on the March . . . What U. S. Action?" and "What Chances for India's Middle Way?"

In coming weeks, the groups will deal with such considerations as "Middle East . . . What Hope for Stability?" and "U. S. Global Strategy . . . What Outlook for 1960?" Eight topics are included in the series.

Following each discussion, the group members complete a series of opinion ballots which are forwarded to the Department of State in Washington.

## 59% Vote In Primary Election; Officers' Installation Tuesday

Voter Jackie Gall emerges victorious after mastering the election machine which was placed in the lobby of Comenius Hall for the USG primaries. Students will again get a chance to use the election device in the general elections on Monday and Tuesday. Photo by Galle

## College Choir Completes Plans For 3,700 Mile Concert Tour

A 3,700 mile western concert tour of the college choir is now in the final stages of preparation, according to Ralph Shields, president of the group.

The trip will include 11 concerts in six states.

The 49-member organization will leave the campus on Saturday, April 2, Shields said. The first stop will be in Dover, Ohio, where

a concert will be sung at the Dover Moravian Church.

From Ohio the group will travel through Indiana, Wisconsin, Minnesota, North Dakota, and Michigan, where they will present concerts in local Moravian churches, or through sponsored programs in local high school auditoriums.

The entire trip will be made by chartered bus and includes a six hour ferry ride across Lake Michigan enroute from Green Bay, Wisconsin, to Unionville, Michigan.

(Cont. on p. 6, col. 4)

## Peterson Expounds On Life's Purpose

"We all must answer the question, 'What is the purpose of our existence?'" explained the Rev. Floyd P. Peterson, Pastor of the Palmer Township Moravian Church in Easton, at yesterday's convocation.

"We often can't answer and don't want to answer this question and therefore we try to hide from it and from reality," continued Peterson.

But, eventually, the question must be answered, he said.

He maintained that it is God who asks the question and He who has the answer "in the revelation of Himself in Jesus Christ." "It is in Him that our questioning minds are satisfied," Peterson concluded.

## Final Election Sees M'Donald, Jacob Opposed

Fifty-nine percent of the student body cast their ballots last Monday and Tuesday in the primary election of officers for United Student Government (USG). The general election will be conducted on Monday and Tuesday, March 7 and 8.

The same procedure as was used in the primary election will be followed in the general election. New officers will be installed at a special USG meeting Tuesday, March 8 at 7:30 p.m. on South Campus, room 301.

Candidates whose names will appear on the presidential ballot are James MacDonald and Jack Jacob. MacDonald captured 270 votes and Jacob 174.

John Medernach and Richard Stafferi each received one write-in vote for the office of president.

Vice-presidential candidates will be James Naisby and Joel Leeb. In the vote for this office, Naisby received a plurality of 182 votes to Leeb's 139 and Donald Morrow's 125.

Candidate for treasurer Thomas Christianson received 287 votes in the primary election. Runner-up Robert Fatzinger, who received 150, will face him in the general election. Sue Wilbraham received one write-in vote for the position.

Ruth Welch received 275 votes for the office of secretary. Opposing her in the general election will be Miss  
(Cont. on p. 6, col. 3)

## Beck Contest To Be Held On March 31

The James M. Beck oratorical contest, held annually at Moravian College, will take place this year on Thursday, March 31. The program will be conducted during a student convocation in Johnston Hall.

Mr. Ronald Zeller, instructor in English, is in charge of the program and announced this week that prizes of \$25, \$15, and \$10 would be awarded to the first second and third place winners of the contest.

He stated that the contest will be judged by individuals to be selected by college president Raymond S. Hauptert.

The contest is open to any member of the student body. Interested persons have been requested to contact Zeller as soon as possible.

Zeller commented that the subject matter of speeches would be left up to the individuals entrants but that topics should be "within  
(Cont. on p. 6, col. 4)

## The Machine . . .

It seemed that one of the benefits that would result from having a voting machine for use in USG elections would be a reduction in the number of the usual illegal actions which accompany campus elections.

But it now seems that this has not resulted. Following the primary elections in the early part of the week, stories of "dirty politics" began to circulate about the campus.

It was rumored that three people were in the election booth at the same time with the curtain drawn. Then there was the story that two students were in the booth at the same time with the curtain drawn. At least two individuals were reported to have had their names crossed off the official list before they had voted. There were also numerous complaints about the generally lackadaisical attitude of the elections committee.

Checking of these various rumors revealed an element of truth in all of them.

In order to prevent such occurrences next week at the general elections several things must be done by the elections committee.

First, the elections committee must see to it that two members are always present and it is highly advisable that these two should not be members of the same fraternity or sorority.

The location of the voting booth is a central one but an extremely bad one. Comenius lobby is a center of mass confusion when classes change and this makes effective supervision of the voting extremely difficult. Therefore, the machine should be moved into the hall leading to the chapel. The registration desk should be placed in front of the machine. One committee member should be placed at the desk and the other next to the machine to clear it after the voter has finished.

Before an individual has his name crossed off the master list, he should be required to present his college identification card. When his name has been removed, the voter should receive a numbered slip of paper.

The voter should then go to the booth, but no more than one student voter should be allowed beyond the desk at any time.

After leaving the booth the student should sign the slip of paper and give it to the machine attendant to insure accuracy.

The voting machine is something new in campus elections. But it is evident that much stricter controls are needed in order to stop the adolescents who think it is a new toy or who get a kick out of flouting legal procedure.

## Challenge . . .

For the past two weeks *The Comenian* has been featuring a discussion of honor systems—as they operate generally and this week as such a system would operate at Moravian.

The article on an honor system at Moravian is "must" reading for all.

One thing must be clear from the beginning—the type of system discussed is one which applies to all areas of college life—the academic, the athletic, and the social.

The recent election mess serves as a warning that something must be done to correct the highly undesirable attitude which many students now have toward their college activities.

This system could not and should not be inaugurated overnight—or even in one semester. To have a truly effective and workable honor system takes a great deal of work and education of administration, faculty and student body.

To begin with, the new USG administration should immediately appoint a committee to investigate thoroughly the possibility of a comprehensive honor system.

Then it must begin a long and careful educational process of present underclassmen and thoroughly acquaint freshmen through the orientation program.

This is a definite challenge to the new USG officers—if you really want to do something with USG for the school, consider starting such a study as this.

## KEEP OFF THE GRASS !!

by Neil Eskolin

Chin up gang, only five weeks 'til Easter vacation. Don't give up now. Remember the inspiring

words of that world renowned educator, John Amos Comenius, who stated — er — Oh well, it wasn't very important and he's dead anyway.

In the meantime, however, all sorts of exciting things are going on at our little institution. In case you've been sleeping for the last week or so, we are in the middle of USG elections and tons of mud (because of the spring thaw, of course. I wouldn't want to cast any aspersions.)

In conjunction with the elections, the "Happiness Boys," those collectors nonpareil of useless information, have, after cogent observation, decided to take a firm stand. Expressing themselves in the best tradition of ultra middle class conservative provincialism, they have decided to "Keep Cool With Coolidge."

If you see any people on campus walking in the general direction of the main library wearing a bathing suit and sun glasses and carrying a towel, don't get panicky. They're probably just heading for the lower stacks. Rumor has it that this cloistered area has been transformed into a Turkish bath. I even heard that the administration is planning to hire a masseur. Someone said that President Haupt railroaded this motion through at the last faculty meeting despite the vehement protests of Mrs. Hunt, the librarian.

Many of the boys who eat in the Lear-a-teria have been anxiously awaiting the return of Lear, who is convalescing. It seems that without his eagle-eye observation, the food portions have been growing steadily smaller in recent weeks. It cannot be positively affirmed but rumor has it that the women who work behind the food counter are cutting down on the portions, collecting the leftovers and sending "Care" packages to Lower Somaliland.

Also in connection with the Lear-a-teria, a very entertaining little incident occurred there last week. The illustrious editor of a well known and highly regarded (?) campus publication, while in the process of buttering a stale roll, had the misfortune of breaking his knife in half. This didn't disturb our illustrious leader half as much as it did the person who was sitting next to him. The end of the knife plopped into his spinach.

The romantic side of campus life is usually handled by my feminine cohort. However in this case the event in question has gone unheralded for too long a time to let another week pass. Congratulations to Bob Volko and Judy Lewis who were pinned during the Christmas vacation.

See ya around the election booth.

## Honor System At Moravian Would Help Teach Maturity

This is the second of a two-part discussion of the value of the honor system and its potential advantages at Moravian.—Editor.

By Stephanie Rights

The problems of growing up are countless. And Moravian College is in the process of growing up. It is faced with the task of revising and improving its academic curriculum, of overcoming student apathy, and most important, of becoming a well-integrated body with certain recognizable standards and ideals.

The institution of an honor system at Moravian would be a major step in making Moravian the kind of liberal arts college that it should be.

In what way would the honor system benefit Moravian? First, consider the often indifferent attitude of the average Moravian student toward this school. Student organizations are not supported. Elections are disregarded. The student body lacks a common unifying ideal. As a result the student feels like a transient in a foreign country instead of an integral part of a unit.

The need for school spirit cannot be filled by a good basketball team or football team. It must be filled by something with more purpose and value. The honor system in many ways provides just that needed rallying point, for the honor system, when well established in a college, provides more than a temporary, fluctuating enthusiasm that comes with the defeat of a rival team. The honor system becomes a way of life in itself.

Under the honor system, the student has a social and academic freedom, impossible in any other kind of college government. The responsibility for his actions rests on himself and on his fellow students.

Thus, if the student is to maintain his self respect he must respect the honor code under which he is living.

Furthermore, it is the students themselves, who in most cases of violated rules or regulations, deal out the punishment. No longer is the administration playing watchman, telling the student every step

to make like a vindictive mother watching over her ten-year old. No longer is the administration serving as the scapegoat for student grudges and animosities.

At Moravian, a unifying force such as the honor system is desperately needed. Students should become active agents in the regulation of their own lives. They should be in the position of responsible, trustworthy adults instead of that of irresponsible adolescents.

Each individual should possess the necessary chance to supervise his own life under an honor code in order that he might grow. Faculty and administration should be free to deal with the problems of raising the academic standards of the college.

The establishment of an honor system is a long and difficult process. Investigation must be made to find the form that would be the most workable at Moravian and the way in which it would be instituted. The student body must be educated to understand and accept the concept of honor and to realize that the formation of a high set of values is more important than just "getting through college."

In all probability too, the honor system will have to be initiated in degrees, first perhaps in the senior and junior classes, expanding it gradually to encompass the whole school. Such a task is obviously long-range, and must be begun now, not later.

Now is the time to help Moravian on this important step towards its adulthood and maturity. Moravian College needs an honor system.

## Student Apathy Alleviated By Stressing Responsibility

By Gene C. Salay

(In cooperation with Triangle Honor Society)

What's all this business about student responsibility we keep hearing about? What's this about student apathy that appears over and over again in our publications? Only half of us voted on the referendum put before us two weeks ago. Is this exercising student responsibility or is it again a case of student apathy?

One of the biggest problems facing the college community is to get student participation in its activities. Student enthusiasm and support is a most essential part of having school enterprises function successfully. How can the average student be convinced that it is necessary for him to be interested in what is going on around him and to do something about it?

When we enrolled at Moravian College, each one of us set a goal to attain as successfully as possible.

Thoughts of doing well academically were one way we hoped to show our parents that we appreciate what they have done for us. Yet the student must consider more than just the academic side of his college life.

When an industrial firm hires a man today, his abilities in one specific field are not the only consideration. They want a man with a

well-rounded general education who has also shown an interest in and participated in other phases of college life, since extra-curricular activities help to bring out the leadership qualities and abilities of students.

Many campus organizations exist at Moravian so that we may make efficient use of our time and abilities. Honorary, social and national societies, clubs, and fraternities, and the various publications are present to contribute to our mental and physical growth as future leaders of America, also that Moravian College may continue to flourish.

These organizations are established for our benefit. If they are to continue to function at all, yet successfully, they must be supported.

Success depends on our willingness to do more than the minimum required. We get returns out of school only in proportion to the effort we put into it.

# Candidates Air Views On USG And Apathy

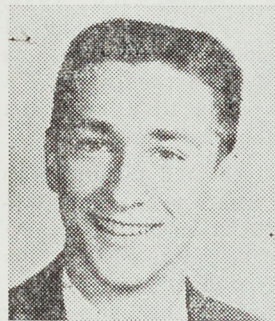

The United Student Government (USG) general elections will be conducted on North Campus next Monday and Tuesday, March 7 and 8. In order to acquaint the student body with the candidates, **The Comenian** has prepared this special page.

Each of the candidates was asked two questions: (1) What would you like to see USG do during the coming year? (2) What do you feel should be done by USG to realistically combat student apathy? Their answers are numbered in the same order as the questions.

## President

**Jack Jacob**

Jack Jacob, junior, business administration, Bethlehem, USG representative, junior class president, Moravian Grotto president, Epsilon Beta Alpha business fraternity, Varsity "M" Club, cross country, indoor track, wrestling, Tau Kappa Epsilon fraternity.

(1) When we, as students, look around our hallowed halls, many imperfections become quite evident. What is even more perplexing is when we can't find sufficient means to rectify these situations.

I feel that a system should be established by which a special USG investigating committee would make periodic evaluations as to the progress of its various organizations.

On the other hand, individual students as well as groups should be encouraged to offer suggestions.

(2) In the past, USG policy has been one that represents only a small group of interested students rather than the entire student body. USG policies must continually grow along with, and adapt to, the increasing number of students which they serve.

If you, the students of Moravian College, elect me to the position of president of USG, I will do everything in my power to provide a more efficient and dynamic USG as well as equal and improved representation.

## James MacDonald

James MacDonald, junior, English, Staten Island, N. Y., USG treasurer, Constitutional Revisions Committee, freshman class vice-president, sophomore class president, Religious Activities Committee, Triangle Honor Society, **The Comenian**, cross country, intra-mural sports, Omicron Gamma Omega fraternity.

(1) In the coming year a closer contact should be made by the student government with the administration and Board of Trustees in relation to tuition or student fees. I believe the student, through his representative, USG, should at least be consulted on any proposed change in tuition, not left in ignorance until the change has been made. Administration support is essential to a strong student government.

A more centralized system should be worked out to allow for the handling of appropriations for organizations by fewer people.

Our student government can also gain a great deal from a continued attachment to the National Student Association.

(2) Student apathy can be remedied a great deal by efforts to more fully publicize the workings of student government. A student who is aware of the issues affecting his interests prior to the meeting will be much more likely to attend.

The student leadership training program which will begin at Moravian this year will also be an aid to the student interest and can be expanded to a point where it will fit in well with freshman orientation and build a freshman's interest in student government.

## Vice-President

**Joel Leeb**

Joel Leeb, junior, pre-dental, South Orange, N. J., USG representative, USG special committee chairman, Student-faculty Convocation Committee, RAU Science Society, cheerleader, Tau Kappa Epsilon fraternity.

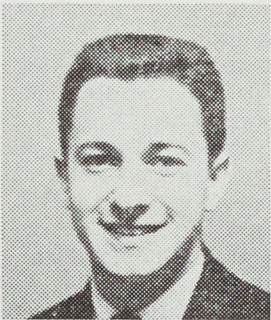

During the forthcoming year a more vigorous USG administration is necessary to correct old problems and to attack new ones. There has been a great lack of USG interest in the students' activities, as evidenced by only two of the ten standing committees having reported to the parent body this year.

I also feel an investigation should be made into the value of USNSA on this campus. I have found that NSA has provided us with little, if any, pertinent information.

With the advent of the Student Union Building the USG must plan now in order that full use can be made of the Student Union immediately upon its completion.

(2) Student apathy is a direct result of both a lack of aggressive student leadership and poor means of informing the student body.

The latter problem can be solved by the publishing of special reports on important issues, written by a USG officer, in **The Comenian**. Also, a greater attempt should be made toward getting interested students to attend meeting and to take part in the discussions.

## James Naisby

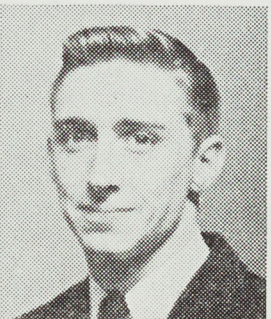

James Naisby, sophomore, business administration, Franklin, New Jersey, freshman dormitory proctor, college choir, intra-mural sports, Omicron Gamma Omega fraternity.

(1) There should be greater contact, cooperation, and agreement between the faculty, administration, and USG. One thing to be considered is the present grading system which should have something done to regulate or stabilize it. A student-faculty-administration committee could be formed to investigate grading procedure in other colleges and through this committee the flaws in our system could be discovered and the newly obtained ideas considered.

In this way it would be possible to organize a grading system that would be helpful and beneficial to both faculty and students and would set up a system based more on the student's true value and less on his major or previously received grades.

(2) In order to improve student apathy there must be a greater appeal by the U.S.G. and other organizations to the student body. This should be done in such a way as to increase school spirit and general interest in college activities. Cooperation must be gained from day as well as dorm students.

If the U.S.G. could take some of the funds that accumulate from year to year and use them for the improvement of student body inter-relations, it would be easier to achieve student cooperation.

## Secretary

**Ruth Welch**

Ruth Welch, junior, elementary education, Havertown, Pa., USG representative, **The Comenian**, Kappa Delta Epsilon education sorority, Grotto Club.

(1) A new United Student Government must comply to present precedents, its constitution, and initiate ideas and plans of its own.

My deepest desire is to see

USG become an active part in the life of every organization on the Moravian College campus. I feel that this could be accomplished by the discussion of issues by USG and the reading of the minutes in the individual meetings of all organizations.

The election of competent, wholesome representatives that are not afraid to express opinions, to USG would also help.

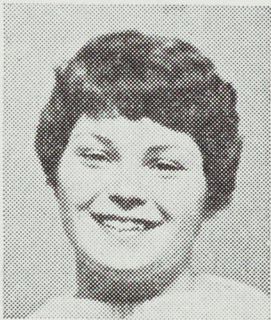

Thus, I feel that a completely informed student body will become a more active and more interested group.

(2) Student apathy is a problem that most colleges face. The general "lackadaisical" nature which exists can be overcome by a desire and a drive to do well academically. The taking of an active part in the organizations that a student joins, and the support of the activities of the college, such as sports events, informal discussions, and the United Student Government is also a requirement of a true student.

This I feel can be done by compulsory attendance at all meetings of any organization, with the stipulations that the student not be a recognized member if not present.

## Susan Wilbraham

Susan Wilbraham, sophomore, Downingtown, Pa., elementary education, sophomore class activities committee, women's dormitory council president, Phi Mu Epsilon sorority.

(1) The USG has sponsored or initiated many new projects. The freshman orientation program was one such project. However, USG can do much more

in the coming year to improve the success of this much needed program.

Other things I would like to see USG do are to: (1) organize a debating team. (2) provide more events like the skating party, or trips, a student auction, free group entertainment by and for the students, student workshops concerning student-school problems, and student-faculty panel discussions. (3) work in conjunction with the faculty in arranging the calendar of student activities to avoid radical conflicts. (4) exercise more authority to promote the realistic needs of the student body.

One step in combating this problem is to make the students feel like an active part of Moravian College and of the USG and its activities by continually emphasizing that the USG meetings are open to the whole student body and not just the elected members.

The USG should have a bulletin board devoted specifically to USG activities along with a suggestion box.

## Treasurer

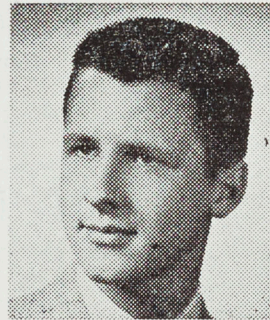

**Thomas Christianson**

Thomas Christianson, junior, history, Moorhead, Minn., freshman class treasurer, sophomore class treasurer, Social Activities Committee treasurer, Men's Dormitory Council, college choir, Pi Mu pre-theological fraternity, intra-mural sports, Omicron Gamma Omega fraternity pledge.

(1) I would like to see the USG continue to work for the good of the students it represents. By retaining an active membership and a keep interest in the National Student Association, I believe that in this way the Moravian student body will make a proud name for itself.

I feel that improvements could be made in the voucher system which is used by member organizations of the USG. This system could be simplified by not requiring as many signatures as are presently needed in order to obtain funds.

I would also like to see the committee which is investigating the band situation continue its work so that in the near future the band will again be an active campus organization.

(2) The student body must be confronted with what is going on.

I don't think that all students realize that they are paying \$25 a year to the USG.

If the USG emphasizes this point and makes

the student realize that he is not just throwing his money away, then I feel that part of your student apathy problem will be solved.

## Robert Fatzinger

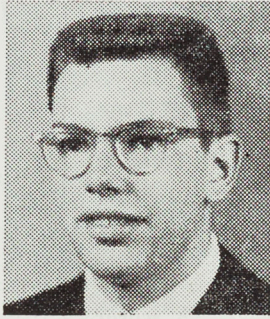

Robert Fatzinger, junior, Bethlehem, business administration, USG Elections Committee, **The Comenian**, **The Benigna**, Epsilon Beta Alpha business fraternity, college choir, cross country, indoor track, Tau Kappa Epsilon fraternity.

(1) The new Student Union should be, in my estimation, student centered. In order for this to be accomplished, the USG must assume the maximum of control from the very outset. The USG should take an active part in the formulation of regulations and programs pertaining to items such as conduct, usage, and activities.

Moravian College, under the leadership of USG, should keep in constant conduct with NSA and apply to our campus any noteworthy ideas forthcoming from that organization.

USG should organize a more efficient and influential food committee to work in conjunction with the administration.

It is also my contention that the USG should re-evaluate the present unfair grading system and propose to the administration a revised and equitable system.

(2) The problem of student apathy is very acute at Moravian College. USG can play a very important role in combating the situation.

Since the abolition of hazing, the nature of freshman orientation has been drastically altered. However, USG should refine the new program.

A further effort could be made to contact, through NSA, other campuses and evaluate apathy-fighting programs.

# Wrestlers Compete In MAC's After A Successful Season

## Matmen Travel To Tournament With 9-1 Record

by Tom Fromhartz

After a successful season of nine wins and one loss, the Moravian matmen are taking part in the Middle Atlantic Conference Championships tonight and tomorrow at Lebanon Valley College.

Last year Wilkes College took the title with three individual champions, while Moravian finished seventh. The Hound's only representative in the finals was Gus Rampone who has since graduated.

This year the competition will be particularly interesting since six of last year's eight champions will be returning.

Coach Paul Kuklantz will enter the same lineup he has been using all season. Kuklantz will use Dick Gross at 123, Bill Rinker at 130, Gene Medei at 137, Dan Turner at 147, and Dick Bedics at 157.

In the heavier weight classes, Kuklantz has decided on a few changes. He will use Dick Schaeffer at 167, while Dave Bryant will move up to 177. In the heavy-weight class Kuklantz will use either Steve Edraney or Dave Linaberry.

There are only two titles which will be undefended. They are 137 and 177. These titles will be open to everyone and the competition for them will be keen.

Stauffer of Wilkes, who was champion at 123 last year has wrestled at 130 this season. His teammate, Marvin Antinnes has also moved up one class from 167 to 177. This will probably open two more weight classes to new champions.

There will be an interesting battle at 130 between Stauffer and defending champion John Ayres of Bucknell. Moravian's Billy Rinker will add to the suspense since he has lost only two dual meets in two years, both of them to Stauffer.

Undefeated Gene Medei will present a serious challenge to defending champion Romig of Lycoming.

Dick Schaeffer will be in an  
(Cont. on p. 5, col. 1)

## Girls Beat Wilkes As Clay Scores 22

Moravian College's girls' basketball team scored a 48 to 38 triumph over Wilkes College in a game played at Wilkes last Saturday.

The two squads were tied at the end of the first quarter after which Moravian jumped ahead to lead for the entire game.

Judy Clay was the high scorer for the game scoring 22 points followed by Nancy Ullrich who contributed 14 points.

The women will have a basketball playday tomorrow in Johnston Hall at 9:15 a.m.

Gene Salay throws a perfect strike Tuesday in the Inter-fraternity Bowling League. The Omicron Gamma Omega Black and Red teams won the league championship. Photo by Stoddard

## Black, Red OGO Teams Win In I-F Bowling Championship

by Gene Salay

Omicron Gamma Omega, led by its Black team, won the I-F bowling championship last Tuesday by racking up a total of 75½ points throughout the season. This tally was 34½ markers better than second place Tau Kappa Epsilon, which registered 41. Sigma Phi Omega, in last place, scored 28½.

In the final match of the season, Tom Christianson's high game of 232 as well as his 517 series led his OGO Black team to a 3-1 victory over SPO's Green squad. High for the losers with 453 was Jim Harkel.

Paul Dorozowski showed the way for his Teke Grey-mates as his 531 smothered the Whites of SPO, 4-0. Arnie Goldberg's 443 was high for SPO.

The Red club of TKE bowed to the OGO Red team 4-0 in the other match of the afternoon. Steve Kalamar's 529 took medalist honors for the winners, while Phil Warnke led the losers with 444.

Plans now being formulated include the representation of Moravian College in the Lebanon Valley Bowling Tournament to be played over the Easter holiday season.

I-F League Results	
High Game	
Gene Salay (OGO)	248
Series	
Gene Salay (OGO)	619
Steve Kalamar (OGO)	611
Jim Harkel (SPO)	585

## Baseball Team Makes Ready With 18 Lettermen Returning

by Bill Pysher

With Moravian's first baseball game less than a month away, the Greyhounds were scheduled to begin practice yesterday.

Coach Gillespie has 18 lettermen returning from his Middle Atlantic Northern Division championship squad which had a record of 13 wins and 4 losses last year. The prospects, on paper, are very bright for another fine season.

The players lost through graduation are Tony Matz, an inspirational leader and outstanding hitter; George Hollendersky, last year's "Most Valuable Player" and the District 2 NCAA catcher; and Willie Wohlbach, utility infielder.

Gillespie stated, "even with 18 lettermen returning, every position will be considered wide open." He hopes to get the squad down to 18 players as soon as possible; therefore every candidate will have to hustle to make the team.

The returning lettermen are: Pitchers: Brian Hill, Lou Klucharich, Mike Lansenderfer, Russ DeVore, Bill Hershey, and Jim Gano.

Outfielders: Gene Jani, Gene Medei, Ralph Mittl, Fred Donatelli, and Steve Edraney. Infielders: Dick Chergey, Charlie Gilbert, Hal Rice, Jeff Gannon, John Bowman, Barry Gaal, and Bill Keller.

# Potter's Record Breaking Climaxes Dramatic Career

by Jim MacDonald

Francis "Ducky" Potter, senior from Allentown, Pa., made his last game the final dramatic performance in a brilliant career as he scored 35 points against Dickinson College last Thursday night. These points put Ducky over Moravian College's single year scoring record with 555 points.

## Grapplers Win As 3 Men Pin In 31-5 Rout

Moravian's wrestling squad finished its second straight 9-1 season as the Greyhound wrestlers routed Elizabethtown 31-5 last Tuesday night.

Gene Medei, Dan Turner, and Dick Schaeffer each completed an undefeated season.

Elizabethtown collected its only five points in the 123 lb. bout as Wayne Howells pinned Dick Gross of Moravian in 8:51 with a reverse cradle.

Bill Rinker started things off for Moravian as he pinned Spencer Speros in 3:37 with a crotch and nelson.

Gene Medei of Moravian won the 137 lb. class bout as Elizabethtown forfeited.

In the 147 lb. bout Dan Turner pinned Jay Martin in one quick move with a body press in 1:50.

Dick Bedics decisioned Elizabethtown's Larry Brown 7-2 at 157 lbs. At 167 lb. Dick Schaeffer completed an undefeated, untied season as he pinned Bob Hess of Elizabethtown in 1:28 with a body press.

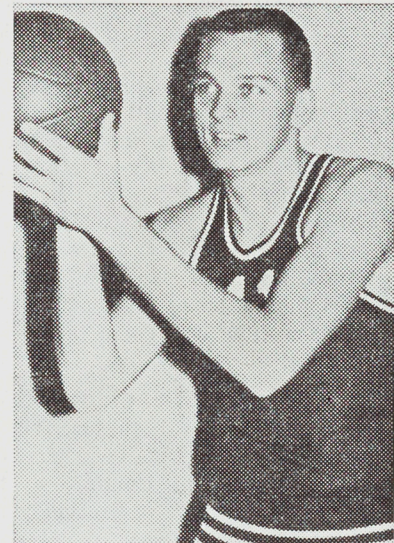

At 177 lb. Moravian's Dave Bryant won a hard fought decision as he beat Elizabethtown's Larry Hertzel 3-1.

In the heavyweight bout Moravian's Steve Edraney was credited with a win as Elizabethtown forfeited.

The previous record for one year was held by Bill Werpehoski. "Werp" scored 553 points in his final basketball season, 1951. Ducky possibly could have added greatly to his record but he was removed from the game to a standing ovation by the packed crowd in Johnston Hall.

They had cheered the dead-eye 6' 1" sharpshooter on as he approached the record and nearly exploded when it was passed. This was Ducky's final performance under strain and he showed his previously proved ability to come through in the clutch.

Potter, who never played high-school basketball, began his varsity career in his sophomore year at Moravian. In that year he scored 213 points and improved immensely as a playmaker while working in the backcourt with Fritz Toner.

However, it was in his junior year that Ducky "came into his own" as a stand-out star. He scored 422 points for an average of 21.1 points per game, led in field goals scored with 167 and in field goal percentage with a .503 mark. He was also tops in the free throw department with 88 scored.

For this fine all-around performance, Ducky was picked for the weekly All-East squad four times and the season All-East squad at the end of the year.

His final year must rate as his greatest all-around performance. Ducky brought his career to an end scoring 1190 points.

This total made him only the fifth Greyhound to top the 1,000 point level in the history of Moravian's basketball. Others were Werpehoski, Skip Fegley, Fritz Toner, and Bobby Jones.

(Cont. on p. 5, col. 2)

### INTRA-MURAL SPORTS

Rocco J. Calvo, assistant professor of physical education, announced this week that there will be an intramural handball tournament held in March. All students interested are requested to register in Johnston Hall before March 11. Competition will be both in singles and doubles.

Team rosters for intramural softball must be turned in to the Athletic Department before March 11.

# The Sports Story

by George Fiegel

The Moravian College basketball team finished up this year's events with its third winning season in a row under the coaching of Rocco Calvo. The 1959-60 season was also the best winning season with a won-loss average of .652, last year's record being .650, and 1957-58 being .550. Since Calvo took over for Harvey T. D. Gillespie three years ago he has compiled a record of 39 wins and 24 defeats with the basketball squad.

The team scored 1889 points throughout the 1959-60 season for a spectacular average of 82.1 points per game. They had five century-mark games in one season which surpasses the number of 100-point games in any season by three games. Four of these games came consecutively to make it all the more thrilling.

The wrestling team finishes their season tonight and tomorrow with the MAC championships at Lebanon Valley. If you want to see wrestling at its finest, that's where to go.

Congratulations to the Omicron Gamma Omega bowling teams in their victory in the Inter-Fraternity bowling league. This kind of sport is good to keep the fraternity rivalries down to good clean competition.

The members of the baseball team have received orders to get in shape before the season begins. Here are a few suggestions on how to accomplish this feat: First, to get your legs in shape, run around the football field fifty or sixty times. Don't worry about the mud and snow, it's more refreshing that way.

Sleep is essential. Don't worry about the math test the next day, just sleep. Eat hearty. This is vitally important. Either Vitamin-enriched peas from Lear's or steak sandwiches at a certain campus hangout will suffice. To get your arms in shape go out and play a little tennis and go out for the tennis team.

All seriousness aside . . . try golf.

That's the sports story for this week.

## MAC Championship . . .

(Cont. from p. 4, col. 1)

open field at 167 since Antinnes has moved up to 177.

From all indications, Wilkes will be the team the rest of the field must catch. They have three defending champions and have just completed an undefeated season.

These final standings will be affected by the seedings, which take place Friday afternoon after the weigh-ins.

Moravian mat fans can look forward to next season's Middle Atlantic Championships which will be held in Johnston Hall in early March of 1961.

## Potter's Career . . .

(Cont. from p. 4, col. 5)

In 22 games Potter averaged 25.2 points per game.

Ducky also broke the Moravian single game scoring record by tallying 43 points in a dazzling performance against Scranton. The previous record had been held by Paul Marcincin, present junior varsity coach, with 42 points.

Ducky sparked the team all year with his snappy play, leadership, ability on the court as captain, and timely scoring. When asked for a statement on his performance Ducky could only say, "I owe anything I've done to coach Rocco Calvo and the continued help of my teammates."

# Potter's 35 Leads Cagers To 106-70 Rout

Paced by Ducky Potter's record shattering performance, the cagers completely overwhelmed Dickinson, 106-70, last Thursday evening in Johnston Hall.

Exhibiting a dazzling display of shooting, Potter countered 35 points, bringing his season's total to 555 and a new record.

With 10 minutes remaining in the contest, Potter's name went into the record book as he scored his thirty-fifth point. He was given a standing ovation as he left the court.

It also makes the fifth time that the Hounds went over the century mark for the 59-60 campaign.

Dick Kosman's foul shot put the cagers in a 5-4 lead which they never relinquished. The halftime score read 45-32. Other Hounds to score in the double figures were Dick Chergey, 21; Leo Stinner, 15, and Hal Rice, 10.

The Moravian Jayvees won by a 86-69 score.

# OGO's Triumph In First Game Over Bandits

In the first round of the Intra-Mural basketball championship, Omicron Gamma Omega defeated the Bandits, the OGO B team, 72 to 43.

High scorer for the Bandits was John Bowman with 15 points.

Barry Gaal led the OGO's with 16 and was ably assisted by Hunter Matthews, who contributed 15.

The OGO's extended their winning streak to six games with no defeats this year.

The Bandit's record now stands at 4 and 2.

# Courtmen Finish Season; Establish New Records

The Moravian College hoopsters completed their 1959-60 season with a 15-8 overall record, and they were 10 and 3 in the Middle Atlantic Conference.

The Hounds set a new total point and game point average. They amassed a total of 1889 points and held an 82.1 game average.

The team also was the first in the college's history to score 100 points plus in each of five games. The 106 points against Dickinson was the second highest point total even scored against a Moravian opponent.

Francis "Ducky" Potter proved to be the highlight of the season. He set two college records. Potter scored 43 points against Scranton and had a season total of 555 points.

## Basketball Statistics

	Games	Field Goals	Ave.	Free Throws	Rbds.	Total pts.	Ave.

# Trackmen Run In N.Y. Meet; Fail To Place

The Moravian College indoor track team journeyed to Madison Square Garden in New York last Saturday where they were one of five teams entered in the one-mile relay race.

The other four teams were Iona College, City College of New York, Merchant Marine Academy, and Monclair State Teachers College.

Moravian failed to place in the standings. The four Moravian speedsters ran in the following order: Tommy Grammes, George Fiegel, Bob Kern, and Byron Borst.

City College of New York won the meet.

## Poetry Contest, Jazz Concert Set By SAC

Announcement of plans for a "beat poetry" contest to be sponsored by the Social Activities Committee (SAC) was made this week by Joan Albrecht, co-chairman of the organization.

The contest, Miss Albrecht explained, is being planned in conjunction with a Matt Gillespie jazz concert which will be held in Johnston Hall on Friday, March 18 at 8 p.m.

Miss Albrecht stated that the contest would be open to any member of the student body. The contest will be judged by Matt Gillespie and the winning piece of poetry will be read during the intermission of the concert.

Miss Albrecht requested that entries be submitted to any member of the SAC by Wednesday, March 16.

## Meteorologist Visits Campus

Dr. Alfred K. Blackadar, associate professor of meteorology at Pennsylvania State University, speaks to students during his two-day campus visit last week. Blackadar addressed the RAU Science Society last Thursday afternoon on the topic, "Earth Satellites and Their Meteorological Uses." On Friday, the meteorologist and astronomer lectured to classes in physics. His visit was sponsored by the American Meteorological Society. Photo by Galle

## Sororities Pledge 34 Women In Spring Semester Rushing

Alpha Epsilon Pi and Phi Mu Epsilon sororities announced this week that a total of 34 women have been pledged for the spring semester.

Both sororities held a punch party on Monday, Feb. 29, at 7:30 p.m. in their respective sorority rooms to welcome the new pledges. The parties followed a week of formal rushing.

Norma Guritsky, spokesman for Alpha Epsilon Pi, announced that the following will become pledges of the sorority: Wilma Brennewis, Janice Davis, Bette Ann Dickman, Carla Dinstel, Janet Gleva, Carol Horscroft, Barbara Johnson, Irene Kosapyr, Barbara Nagy, Mary Phriemer, Joan Raidline, Marta Roberts, Sandra Rupert, Linda Smith, Rosemarie Torok, Joan Wood.

### Phi Mu Epsilon

Barbara Snyder, Phi Mu Epsilon's pledgemaster, announced the following pledges: Georgene Billiard, Susan Berger, Linda Burnett, Gail Ekstrand, Judith Freeman, Jean Friedman, Emily Gallup, Susan Gores, Mary Ann Gehman, Patricia Hall, Winifred Hearn, Betty Hicks, Kathleen Klammer, Sandra Kromer, Beverly Phipps, Emily Price, Nancy Trach, and Ann Woltjen.

Miss Guritsky stated that Alpha Epsilon Pi will initiate its pledges at a formal ceremony to be held on Monday, April 4. Delores Lang, president of Phi Mu Epsilon, announced that its initiation would be held on Monday, March 21.

## Draft Deferment Test Applications Are Now Available

Applications for the April 28 administration of the College Qualification Test are now available at Selective Service System local boards.

The Educational Testing Service administers the test annually to students desiring to be deferred under the Selective Service draft law. The results of the test are used in considering the student's deferment status.

An application and bulletin of information may be secured from the local Selective Service offices in the Bethlehem Trust Company Building, located on the corner of Broad and Main Streets.

Results of the test will be reported directly to the student's Selective Service local board of jurisdiction.

## USG Election . . .

(Cont. from p. 1, col. 5) Wilbraham, who received 88 votes. Eliminated for the post were Nancy Warren, 42, Georgene Billiard, 1, Kenneth Walsh, 1, and John Yelovich, 1. All but Miss Welch were write-in candidates.

A total of 458 students voted altogether. This figure represents 59.2 percent of a revised total college enrollment of 773.

The purpose of a primary election, as stipulated in the USG constitution, is to eliminate all but two candidates for each office.

## Comenius Day . . .

(Cont. from p. 1, col. 1) the award recipient.

On the morning and afternoon of the observance a series of academic papers will be presented by certain dignitaries in attendance.

The papers will be presented as a symposium of opinion on the topic "The Comenius Influence on the Denominational Education System."

Fred G. Holloway, president of Drew University, Madison, N. J., will present a paper on "The Influence of Comenius: A Statement of Probability."

Kalfus will speak during the morning, in the Archives Building. Eller and Holloway will address their remarks to listeners in the South Campus Chapel that afternoon.

As part of the events planned, the Boston Opera Company will present a light opera, "Voyage to the Moon," in Johnston Hall Saturday evening. On Saturday a chamber ensemble will accompany the college choir in a concert in Central Moravian Church at 8 p.m.

Further details on the observance will be forthcoming.

## Hauptert Contributes Article To Ecumenical Encyclopedia

Dr. Raymond S. Hauptert, president of Moravian College, writing on "Church and School in America," was one of the contributors to the *Weltkirchenlexikon*, an Ecumenical Encyclopedia which was published in Stuttgart, Germany in January.

### Choir Tour . . .

(Cont. from p. 1, col. 4)

The choir will return to Bethlehem on Thursday, April 14.

The expenses of the tour will be financed by the host Moravian churches, Shields stated. The members of the choir will be houseguests of the congregations.

Shields said that tentative plans now include a telecast from Fargo, North Dakota.

Beverly Luzietti, choir business manager, is in charge of the arrangements.

Mr. Richard Schantz, assistant professor of music and director of the college choir, stated that the selections to be sung by the group will include a group of 19th century compositions, carols, and other traditional and contemporary compositions.

The next appearance of the choir in Bethlehem will be on Sunday, March 27, at 8 p.m. in Central Moravian Church, when the group will present a formal concert as part of the Comenius Day activities.

The choir's most recent public appearance was at the Masonic Temple in Bethlehem prior to the Christmas vacation.

### Beck Contest . . .

(Cont. from p. 1, col. 5)

good taste." Length of the speeches will be limited to 10 minutes.

A preliminary contest will be held about a week before the convocation, at which time the selection of five finalists will be made, Zeller said.

The late James M. Beck, LL.D., was graduated from Moravian College in 1880. He was a corporate attorney and at one time held the position of Solicitor General of the United States.

The oratorical prize was established by him from the income on a \$1,000 fund to promote excellence in oratory.

Hauptert, in his writing, gave particular emphasis to the aspects of church and school themselves and in relation to one another, which differ from European practice.

Special attention was also given to the historic principle of the separation of church and state, as provided in the constitution, as developed throughout the history of the United States, and as understood in America today.

It is pointed out in Hauptert's work that the school in the United States had its origin in the church. This is true alike of all levels of educational institutions.

Public schools and tax-supported colleges and universities developed during the nineteenth century as a result of the growing demand for education, the greater opportunity in higher education and the church's inability to assume the financial responsibility required, he stated.

Hauptert considered the church's contribution to education in the United States under three headings.

First he considered the important part played by the church in the founding of the educational system in America. Second, the Church's role in financing and operating the educational institutions was stressed.

Finally, he considered the service of the church to education in providing those forces which undergird any system of education with moral and spiritual strength, besides helping to supply enlightened leadership which all education needs.
