

# The Comenian

MORAVIAN COLLEGE

STUDENT WEEKLY

Volume LXIV

Bethlehem, Pa., Friday, January 12, 1962

Number 12

## Howard Named New Editor; Appoints Reinhard To Assist

The Moravian College Board of Publications has appointed David B. Howard as Editor of the *Comenian*.

**HOWARD IS A JUNIOR FROM OLD SAYBROOK, CONN.** He has previously served as

David Howard

assistant news editor and as associate editor of the *Comenian*. Howard is also Secretary of Omicron Gamma Omega (OGO) fraternity and has served on the Mens Food Committee. He was editor of the Student Handbook this past year and is currently serving on the Concert-Lecture Committee of the College Union.

The new Editor has appointed as his associate editor, Paul Reinhard. Reinhard is a junior English major from Allentown, who has previously been a member of

Paul Reinhard

the *Comenian* Sports staff. He is a member of OGO, and is a sports writer for the *Allentown Morning Call*.

David Bethune and Barbara Douvanis have been selected as co-news editors for the coming year.

Bethune is a junior from Easton majoring in political science. He has also been a member of the *Comenian* staff.

**MISS DOUVANIS, A SOPHOMORE** psychology major from Allentown, is a member of the Political Activities Club (PAC), Blackfriars, and the Woman's Athletic Association (WAA).

Jay Scholl and Ted Meixell will remain as co-sports editors. Grove Stoddard will also continue to serve as photography editor.

The new Editor has also ap-

pointed Tom Apjohn as copy and headline editor. A new feature editor and advertising manager will be named at the beginning of the spring semester.

Commenting on his appointment, Howard said, "The new *Comenian* staff will do its best to make its publication representative of the student body. We hope to incorporate more feature material pertaining to college life." He added that "A new publication schedule may be initiated, because of a definite lack of staff members."

**THE NEW COMENIAN EDITORIAL** board will assume its duties with the first issue of the Spring

Barbara Douvanis

Semester.

In the past few years the change over in the *Comenian* editorial board has taken place near the end of the spring semester.

This year the Board of Publications has decided to name the new editor at the beginning of the spring term to allow sufficient time to set up newspaper procedure and policy.

## College Gets Large Bequest

Moravian College has received 256 shares of American Telephone and Telegraph Company stock through the will of Mrs. Anna Abel Memmert, late of 4941 Walton Ave., Philadelphia, Pa.

The stock is valued at approximately \$35,000.

It is stipulated in the will that the bequest is to be used to establish the Rev. and Mrs. Wilfred R. Memmert Memorial Fund to aid students for the gospel ministry who require financial assistance.

Mrs. Memmert, who died Nov. 24, 1961, was the widow of the Rev. Memmert, '00.

## Major Curriculum Changes Noted In Religion Department

Major revisions within religion course requirements will go into effect next September, Dr. James J. Heller, Dean of the College announced Tuesday.

**THE CHANGES ARE PART OF AN OVERALL RE-ASSESSMENT OF RELIGIOUS LIFE** on the campus which has followed recommendations by a three man team from the National Council on Religion in Higher Education. The team conducted a survey at Moravian last year at the request of the college.

Under the new program students will take three courses of three hours each in meeting the minimum basic requirements. Previously four courses of two hours each had been required.

All students will be expected to complete New Testament Survey, an expansion of the currently required Life of Jesus Christ course, and Old Testament Survey, which will also be augmented from its present content.

**FOR THE REMAINING THIRD** course, students will choose from six new offerings. These will include two new courses, The Religion of the East and Contemporary Religious Thought; two re-

(Cont. on p. 4, col. 1)

## Woltjen Accepts Position; As College Comptroller

John W. Woltjen has been named the comptroller of Moravian College. This announcement was made by President Raymond S. Hauptert.

**HE HAD BEEN SERVING AS ASSOCIATE DIRECTOR OF DEVELOPMENT** and director of the College Union Building prior to this appointment.

Woltjen joined the administration following his graduation from Moravian in 1959 with a Bachelor of Science degree in business administration. He succeeds Charles H. Kuhn Jr., who has joined the administration of Susquehanna University.

"Working on the business end of a college administration," Woltjen said, "is an enjoyable, new experience. Though faced with many problems and challenges, I will try to do my best now and in the coming years. All the work which must be done cannot be finished over night, however, with the understanding and help that I am receiving from the female members of the business office, the task will be enjoyable and completed quicker than expected."

**WOLTJEN SAID HE WILL** give complete service to Moravian College and its students.

"If the students are having business problems, I will be glad to discuss these matters with them," Woltjen said. "The only thing I won't do is pay their bills."

A native of Bethlehem, he is the son of the Rev. and Mrs. Stanley R. Woltjen. He is married to the former Barbara Roberts and

## 'Alberta Outdoors' To Be Presented Monday, Jan. 22

"Alberta Outdoors," an Audubon Wildlife Film, will be presented by the Moravian College Conservation Association and the National Audubon Society at Johnston Hall on Monday, January 22, at 8 p.m.

**IN COLOR, THE MOVIE FEATURES** the wildlife and spectacular scenery of one of the most beautiful sections of Canada, the Province of Alberta. Film display includes the spring migration of the snow-goose and the successful photographing, after a three year search, of the great grey owl in its natural habitat.

As the third in a series of five Audubon Screen Tours, "Alberta Outdoors" will be personally narrated by Edgar T. Jones, photographer, naturalist, pilot and artist.

Tickets may be obtained at Moravian College or the Moravian Book Shop. There are special student rates.

has one child, a daughter. Aside from family and college affairs, he is a member of the Northampton County Society for Crippled Children and Adults.

John W. Woltjen

He is the chairman of the group's fund-raising committee. He is also a member of the Bethlehem Junior Chamber of Commerce and a lay advisor to the Youth Council of the Moravian Church of America.

## Annual PAC Washington Trip To Be Held January 24-26

The Political Activities Club (PAC) will be in for a lesson on civil rights and international affairs when it makes its second annual trip to Washington, D. C., during the semester break. Forty-five students and faculty members will make the three-day trip.

**THE PAC ORIGINALLY INITIATED** the trip in order to better acquaint the students with the work of the national government. This year's group will meet with more than 30 congressional leaders who will discuss civil rights and international affairs. They will hear views on both sides, from Congressmen from different parts of the country—and different parties.

Among the speakers are Sens. Margaret Chase Smith of Maine, James A. Eastland of Mississippi and Joseph Clark and Hugh Scott of Pennsylvania. Senator Hubert Humphrey and Sen. Barry Goldwater, two leaders of the Republican Party, are also expected to address the group.

Congressman William Scranton

## APO Sponsors 'Sculpturing' At First Snow

Alpha Phi Omega (APO) will conduct their Snow Sculpture Contest at the first snowfall of the Spring Semester, Charles Canning, president of APO's Nu Lambda Chapter announced this week.

**HE ADDED THAT ENTRY** blanks will be available to all organizations and living groups wishing to enter the contest. The entry forms and rules can be secured at the beginning of next semester in the office of Dr. Samuel Zeller on the second floor of

(Cont. on p. 4, col. 1)

of Scranton, Pa., is scheduled to speak to the group at a dinner in Washington, while Allen Drury, author of Advise and Consent will be the guest speaker at a luncheon meeting. Tentative plans have been made to visit Attorney General Robert Kennedy and Ted Sorenson, special assistant to President John F. Kennedy.

**FACULTY MEMBERS WHO** will accompany the group include Dr. and Mrs. Otis Shao, Dr. and Mrs. Daniel Gilbert and Dr. Mary Kennedy.

The PAC members will leave Bethlehem at 5 p.m. Jan. 24 and will stay at the Ambassador Hotel in Washington. They will return Jan. 26.

## Parting Shots . . .

To those people who have struggled through three years of college, college life in general appears to be a complexity of infinite detail and little more. Any objectivity they possessed when first entering college has in the course of time given away to the pure subjectivity of being a part of college. It is perhaps this loss of perspective which keeps them from noticing the gradual changes that have taken place within the college.

But whether notice or not changes do take place. Let us take a step back, regain our perspective and survey the whole of the change which has characterized Moravian College during the past several years.

On the academic level there have been two innovations which are of special significance: the honors program and the independent study program. Their importance is greater than that indicated by the simple expansion of the curriculum, for by their very nature they raise the level of the college education above that of spoon-fed facts and figures. The education that carries the greatest worth is that which has been acquired independent of the limiting sphere of the classroom and textbook.

The most noted changes by the student body have been those dealing with the required convocation program. From compulsory daily chapels the program evolved to one required convocation a week, which was frequently religious in nature. Moving increasingly toward more freedom for the individual student, the program was again revised so that no religious service was forced upon the student whose beliefs were in conflict with those of Protestantism. The extra latitude which has recently been granted the student leaves the hope alive that soon we may see Newman and Hillel clubs on campus.

The additions to the physical plant of Moravian should not be ignored, but they are secondary to the prevailing change in attitude which marks the student body, the administration and the faculty. All three elements which form the college have become increasingly concerned with making Moravian College a first class institution of learning. The fear of discarding tradition seems to be less and less prevalent in the college thinking for though tradition is fine as a basis for growth, it must not interfere with the essential process of change.

—SIR

## Worth Waiting For . . .

Along with the dismal rain which appeared last Saturday, the long awaited Moravian College Calendar made its appearance.

This schedule of college events has been a product of the United Student Government (USG) Calendaring Committee.

We feel that this calendar has long been needed both by the students and faculty and it has been worth the wait.

It presents an adequate picture of campus events and meetings which can be viewed very quickly, allowing ample space for personal schedules.

The new college calendar will be an aid to all college organizations and should enable the entire college population to know what is happening around the campus.

—DBH

## LITTLE MAN ON CAMPUS

"ONE OF OUR FINEST FRESHMAN COUNSELORS—SEEMS TO RADIATE CONFIDENCE & TRUST WITH THESE YOUNGSTERS AWAY FROM HOME."

## Important Facts Uncovered Concerning Human Brain

Did you know that a man's brain weighs more than a woman's? That idiots have larger brains than geniuses?

**THESE ARE BUT A FEW OF THE ODD FACTS ABOUT THE** most complex of all living organisms—a fantastically arranged mass of thought centers and nerve fibers made up of billions of microscopic cells.

In an average male adult, the brain weighs about three pounds; in a woman a few ounces less. The mere weight of the organ, however is not a reliable index of intelligence.

Baron Cuvier, a French scientist of about a century ago, had a brain that weighed nearly four pounds. But his compatriot Anatole France, a 19th century novelist, had "greater insight" although his brain weighed only 2½ pounds, according to Prof. Norman J. Berrill of McGill University.

### Mushroom

**BASED ON ITS ANATOMICAL** structure, the brain has been compared to such diverse things as a telephone switchboard and a mushroom on a stalk. Anatomical models make it possible to study this structure in accurate detail,

but science still has much to learn about how the brain really works.

### Electronic Model

New information in this area was recently summed up in a gigantic electronic model. Designed for the edification of physicians, the model shows how the brain reacts to everyday sights and sounds and then files the information for future reference.

Without attempting to reproduce the actual physical shape of the appearance, the model shows the cerebrum—the largest division of the brain—is divided into two halves, each of which controls activities on the opposite side of the body.

**SUCH RESEARCH AS THIS,** into the structure of the brain and how it works is vital to an understanding of why so many persons are mentally ill and to discover new and better ways to help them.

## NYU's Council Repeals Communist Speaker Ban

(New York, N.Y.,—UPS)—The administrative council of the City University of New York has repealed its speaker ban against Communist party members.

**THE COUNCIL RULED THAT** the decision to allow or disallow speaker invitations to party members will be left to the individual colleges.

This is, in effect, the same ruling that existed before the ban was imposed on October 28, 1961.

The Council's decision was based on a report on the legal issue involved by the Committee on the Bill of Rights of the Association of the Bar of the City of New York. The reports final paragraph stated, "Accordingly, it is our considered opinion that a faculty or administration of the City University is legally entitled to permit known United States Communist party members or officers to speak on their campuses."

**AT THE TIME THE BAN WAS** first imposed, the Council emphasized that it had based its decision "upon the best and most competent legal advice the council could obtain."

The Council preceded its formal agreement with the Bar committee's finding with the assertion, "The fact seems to be that excellent legal advice can be in conflict on this issue."

The Council concluded in its report that "until there is further judicial or legislative determination of this question, the educational authorities on each campus are legally free to approve or disapprove invitations to members of the Communist party of the United States as they were heretofore."

**THE LAWYER'S COMMITTEE,** analyzing important U. S. Supreme Court decisions, stressed the fact

## Students Prepare! Union Almost Ready

by Paul Reinhard

Students may go home after final examinations with the comforting—or maybe not so comforting—knowledge that the College Union Building is expected to be ready for occupation by mid-February.

**UPPERCLASSMEN HAVING** been anxiously watching since construction started on the project during the fall semester of 1960. At first it was expected that the building would be finished this past October. But that went out the window when the college received an extra sum of money, which has gone toward the addition of an auditorium.

The basic construction has now been completed, but there are a number of finishing touches which have to be made before the building will be ready for use. The furniture has already been ordered and should arrive in a few weeks.

So keep your hopes up; all is not lost, and the time WILL come when you may enjoy the facilities of the more than \$1,000,000 building.

that "a member of the Communist party who spoke at an open meeting to which the student body and the faculty were invited would not commit a criminal act no matter how ardently he might urge his party's objectives."

The high court has further stated that "advocacy of forceable overthrow as an objective abstract doctrine is constitutionally protected speech." The committee found that "advocacy violates the Smith Act only if it takes the form of 'indoctrination' of a group in preparation for further violent actions, as well as exhortation to immediate action . . . when the group is of sufficient size and cohesiveness, is sufficiently oriented toward action and other circumstances are such that action will occur."

These decisions came from findings in the cases of Dennis vs United States and Yates vs United States. The Smith Act makes it a crime to "advocate overthrowing any government in the United States by force and violence."

**THE REVERSAL OF THE**  
(Cont. on p. 4, col. 2)

## T-Shirts, Beards And Slang 'Suggested' For Interviews

by David Howard

Many of Moravian's seniors are busily preparing for their career after graduation. Most of these soon to be Moravian College graduates, are having interviews with many nationally prominent business organizations in the country.

**THE FOLLOWING SUGGESTIONS,** which have been gleaned from Lehigh University's **Brown and White** will perhaps aid some of our seniors.

If you wash your hands before the interview, don't dry them. Be proud of honest sweat.

Dash into the interview with a cigarette, or preferably a cigar in your mouth, mumble your name and address the interviewer as Joe (If his name should be Joseph pick some other name).

### SIT DOWN ON THE DESK.

If there is any literature on

the desk ask for copies of it to help your roommate who is collecting the junk.

Do not use stilted phraseology; slang indicates that you are at ease and may put the interviewer at ease as well.

**REMEMBER IT IS ALL A** game. Everytime the interviewer asks a question, give an evasive answer and ask him a pointed one in return, for example: "What is your expense allowance policy?"

Do not let the interviewer evade your questions regarding salary, retirement plans, sick leave, and unemployment compensation.

If the company is located in Florida ask for an interview over the Christmas or Spring vacation. If you can arrange enough such invitations at company expense they may pay for your entire va-

cation.

**MAKE IT CLEAR TO THE** interviewer that you know your value to his company and won't be bought for a low price.

Never inquire about the type of work associated with the position.

As you leave, invite the interviewer out for a drink. He will recognize you as an operator.

**AS FAR AS APPEARANCE** goes, students are urged to grow a beard and wear a white T-shirt and sport coat. If the student does not own a T-shirt he may wear a colored shirt with a gay bow tie, string tie or best of all, a bolo tie.

It is hoped that all our enterprising businessmen will heed some of these suggestions. It should ease much of the tensions that accompany the interview and will almost assure success. (Success in getting thrown out the door in record time.)

**HAPPY EXAMS!!!**

# COMENIAN SPORTS

## Hoopsters Drop 2 Of 3; Topple Haverford 66-61

The Moravian basketball team has played three games since the last time most students had a chance to see them in action. Last December sixteenth the Greyhounds took to the court against a strong Lafayette five and dropped a 77-60 decision to the Leopards. During the past week they traveled to Haverford and Lebanon Valley, winning over the 'Fords 66-61 while coming out on the short end of a 74-71 score at the Valley.

In the Lafayette fray, the 'Hounds got off to a good start, jumping into a 12-6 lead early in the game. The superior height of the Leopards soon came into evidence, however, and the Easton collegians forged into the lead at 18-16. For the remainder of the first half, they gradually added to this margin, and went into the lockers leading the 'Hounds 41-31.

**FOR THE FIRST TWELVE** minutes of the second half, the difference varied between 8 and 16 points. With eight minutes remaining, Moravian, led by Dick Kosman, spurred to within four points of the startled Leopards. This effort proved to be for nought as Bobby Kaufman and Gene Denahan put the game out of reach. Kosman led the Greyhounds with 18 points, while Ray Pfeiffer notched 12 and Fran Demko 9. Kauffman and Denahan led the Leopards with 32 and 16 respectively.

When the Blue and Grey traveled to Philadelphia to engage Haverford, a rather weak opponent, the effects of the Christmas layoff were very evident. "Koz," Tim Marsden, and Len Zavacky pulled the 'Hounds through a first half in which each team appeared to be trying to outdo the other in ineptness, each scoring eight points.

In the second half, Moravian appeared to loosen up and shot off to a 51-41 advantage, the largest enjoyed by either team all night. They returned to their habit of giving away the ball, however, and the ten point lead dwindled and finally fell. In the latter stages of the game the lead seesawed back and forth, with the 'Fords leading with as little as two minutes remaining. Moravian, largely through the efforts of Pfeiffer and Ed Wolfsohn, pulled itself together to eke out a 66-62 decision. Kosman, Zavacky, and Marsden led the scoring attack with 16, 15, and 10 points. Pfeiffer rallied in the second half to snare 10 rebounds after a dismal first session. Bill Erb, Pete Dorwart, and Chris Kauffman scored 17, 16, and 15 respectively to lead Haverford.

**THE LEBANON VALLEY SET-**back was particularly disheartening due to the fact that it was the 'Hounds best performance in a long time. They displayed a hustle and aggressiveness which had been lacking in recent games. Moravian rooters in the crowd received a bad jolt with about fifteen minutes left in the game when Dick Kosman injured his

(Cont. on p. 4, col. 5)

## Cagers Face Lions, Wilkes After Exams

The next two teams in the line of combat for the Greyhound hoops are, Albright and Wilkes. In last year's games, the Hounds walloped Wilkes 94-74, but dropped two to Albright 85-58 in their first game, and 81-48 in the second encounter.

**THE LIONS, LAST YEAR'S** Middle Atlantic Conference College Division Champions, stood at the 2-0 mark in league play after the Christmas vacation. They placed second in the first annual Albright Invitational Tournament in December. They lost in the final to a strong Williams College team, 67-62.

Lead by Tom Pearsall, with a 21.7 per game average, the Lions should prove very stiff competition for the Hound cagers.

Norm Bautsch, second in the Lion point parade, Bob Holzinger, their top rebounder, Norm Ruttenberg, and Ray Sommerstad should round out Albright's starting five.

**THE HOUNDS USED THE** fast break to perfection in last year's trouncing of the Wilkes quintet. Butch Kosman led the scorers in the fray with 33 points.

Wilkes should prove by far to be the easier of the two contests.

Against these two teams, along with Kosman, Coach Rocco Calvo will probably start Len Zavacky, Jim Gano, Ed Wolfsohn, and Fran Demko.

## Women Edge Wilkes; Yaeck Leads Scorers With Seventeen Point

Sharon Yaeck scored 17 points last Thursday to lead the Girl's Basketball Team to a 28-20 victory over Wilkes in the opening game of the season. Moravian held Wilkes scoreless in the third period.

Bette Ann Dickman chipped in with 10 points, while Moravian's other point was scored by Vicki Tinnes. Joan Raidline's defense was a determining factor in the win.

The Muhlenberg girls' team team handed the Moravian team its first loss in a close contest Monday. Moravian led until the last two minutes, when three consecutive field goals gave the lead to Muhlenberg. The final score was 36-33. The leading scorer for Moravian was Bette Ann Dickman with 15, followed by Sharon Yaeck with 14. Carla Dinstel contributed the other four points.

# Grapplers Rout Albright 28-0; Lycoming Cops 27-5 Victory

by Bob Sallash

The Moravian grapplers bounced back to rout Albright 28-0 last Saturday night following their opening loss to powerful Lycoming 27-5 in mid December.

Greyhound fans were treated to the second whitewash handed out by a Moravian wrestling team during the sports' relatively short history at Moravian. The previous Moravian shut-out win came over Pennsylvania Military College last year by a 32-0 score.

Dave Linaberry, Moravian's heavyweight representative, seems to be ready to pile drive Albright's Larue Knorr neck first into the mats. No pin however. Linaberry decided Knorr 7-1 in a meet where the Hounds lost not a single match and won 28-0. Photo by Field

Dave Wilson, Moravian freshman opened the dual meet with Albright by pinning Reading collegian Mike Marino at 123 lb. in :54 with a half-nelson and crotch. The pin ended an eight match victory streak for Marino. Last year Mike earned his team's only points in the Moravian-Albright dual meet when he pinned Moravian's Jerry Symons at the light-weight position.

**TONY IASIELLO, ANOTHER** freshman, picked up the fastest fall of the evening when he threw Albright veteran Bob Melnick in :56 seconds with a body press and stack at 130 lb. Melnick had won nine dual matches in a row previous to the Moravian meet.

At 137 lb. Bill Rinker easily decided John Poulos 13-5 to end Poulos' twelve match win streak.

Roger Grubbs remained undefeated and unscored upon as he decided Irv Godboldt 5-0. Grubbs record now stands at 2-0 for the season.

**THE GREYHOUNDS THEN** widened their lead as they scored on four straight decisions.

At 157 lb. Steve Rayda shut-out Jack Snyder 5-0, Dick Bedics defeated Albright captain Bill Vogt at 167 lb. 5-1, Doug Wilkens won over Mike Goldberg at 177 lb. 5-1 and Dave Linaberry decided Larue Knorr at heavyweight 7-1 to end the meet.

The Lycoming grapplers handed Moravian their worst loss in three years as they pinned a 27-5 defeat on the Greyhounds. The last time Moravian wrestlers suffered a similar humiliating setback was in 1959 when Wilkes romped over the Hounds by a 30-4 margin.

**ROGER GRUBBS WAS THE** only Moravian wrestler to win at Lycoming as he collected five points for the Greyhounds on a fall.

Bill Rinker lost his third dual match in four years to defending Middle Atlantic Conference champion Bill Kehrig by a 7-4 score. Rinker's two other dual meet losses were at the hands of Wilkes' Dick Stauffer who holds two MAC titles in three years of competition. Incidentally, in last year's MAC tournament which was held at Moravian Kehrig defeated Stauffer in the championship round to win the title at 130 lb. by a 2-0 score.

Moravian's Dave Wilson (123 lb.), Hank Hitner (130 lb) and Dave Linnaberry all lost on falls. Steve Rayda (157 lb.), Dick Bedics (167 lb.) and Doug Wilkens (177 lb.) lost by decisions.

Moravian regulars Tony Iasiello and Dan Turner missed the Lycoming match due to illness. Turner also missed the Albright match.

## Rinker Proves Old Adage; Little Man Still Has Place

by Paul Reinhard

The Herculean-type giant stands as a towering figure of sports supremacy, but Moravian wrestling co-captain Bill Rinker proves that there is still room for the good little guy.

Bill, a 137-pound senior from Bethlehem, has existed through three years of one of the toughest of college sports—and he's done it successfully. But he's not through yet; and before the year is out, he may well prove that, "It's not the size of the dog in the fight, it's the size of the fight in the dog."

**RINKER HAS PROBABLY** one of the finest wrestling records of any member on this year's team. In his college career to date, he has lost only three bouts. Last season he was third in the Middle Atlantic Conference competition held here at Moravian. But he wrestled at 123 pounds for that tournament.

Bill is a great advocate of a good conditioning program. Each fall he competes on the cross-country team so he might get ready for the wrestling campaign. Then after going through the majority of the season at one weight, he goes down a class when the Greyhounds tangle with their perennial jinx—Wilkes—and for the MAC tourney.

Last season he wrestled in the 130-pound class, but this year Coach Paul Kuklantz is using the talented senior in the 137-pound class. To date he has a 1-1 record, but his showing in the match with Albright last Saturday was an indication of improvement. He, like the rest of the team, will undoubtedly get stronger as the season progresses.

**RINKER GIVES KUKLENTZ** credit for much of the success which he has had. Although he doesn't like to think back that far, Rinker says he got his start in wrestling more than nine years ago—and it was Kuklantz who coached him then. While in junior high school, Bill was city wres-

ting champ two years in a row—first at 78 pounds and the following year at 88.

In high school, Rinker continued his successful career under Bethlehem coach Jim Harkins. He was District 11 champion one year at Bethlehem.

Rinker said his most exciting bouts have occurred when he lost. In his senior year at Bethlehem, he was nosed out, 8-6, by Allentown High's Russ Rohrbach, who went on to win the state championship at 120 pounds. Another time, a bad call caused him to lose a bout to a three-time prep school champion.

**HE HAS ALWAYS BEEN A** top attraction for the Moravian wrestling followers. Although not the strongest man on the squad, his knowledge of the sport often gives him a distinct advantage over his opponent.

What does he think about Moravian's chances this season?

Rinker is confident that the Greyhound grapplers will improve as the season goes along. He said he thinks the squad has shown a marked improvement since its opening-match, 27-5, loss to Lycoming — one of the strongest small-college teams in the state.

**HE SAID HE THINKS MORA-**vian has a better chance this year than it has in the past of defeating Wilkes. Up until this season, the Greyhounds' only regular-season setbacks had come at the hands of the Wilkes-Barre powerhouse. But this season, says Rinker, could easily be a different story.

**Changes . . .**

(Cont. from p. 1, col. 5)

vised courses, Contemporary Problems in Religion and studies in Judaeo-Christian Institutional Religion, and two from other academic departments, Philosophy of Religion and Sociology of Religion.

According to Dean Heller, the changes will promote a deepening of the students basic knowledge of religion while also providing him with a fuller understanding of the impact of religion on modern life and thought.

The revised program allows more freedom of election, which is expected to increase student interest in the subjects, and makes more use of the relationship of religious concerns to the different academic disciplines, Heller added.

**THE NATIONAL COUNCIL** Survey has inspired other changes in religious life on campus. The convocations held on the fourth Thursday each month has become an All-College worship service, held in Borhek Memorial Chapel with guest speakers and the Moravian College Choir. Attendance is voluntary.

**Sculpture . . .**

(Cont. from p. 1, col. 5)

Comenius Hall.

The official starting date and time of judging will be posted on the main bulletin board, Canning stated. Entries should be made as soon after the forms are posted as possible.

Canning urged organizations to plan ahead so they will be prepared.

**HE FURTHER STATED THAT** the purpose of the contest is to stimulate competition, express creative talent, and show college life to the community.

A trophy will be presented to the winning organization, and the judges will be the advisors of APO.

Last year's contest had six entries, with Tau Kappa Epsilon's "Yogi Bear and Boo Boo" winning.

**APO Pledges Clean Lamps For Project**

The fall pledge class of Alpha Phi Omega (APO), national service fraternity, undertook a campus project announced Ron Schmoyer, president of the pledge class.

**THE PROJECT CONSISTED** of cleaning the overhead lamps in Comenius Hall, and changing the chapel bulletin board daily.

This fall's pledge class has been dedicated by the National Headquarters of APO to President John F. Kennedy.

Other projects APO has undertaken consisted of filling a food basket for the Salvation Army, teaching swimming classes to boy scouts, hauling Christmas trees to underprivileged children, and helping at Wiley House on Monday afternoons.

**Muhlenberg To Make A Study Of Curriculum**

Allentown, Pa. — (I.P.) — The Board of Trustees at Muhlenberg College recently voted to authorize a major study of the college curriculum to be undertaken by an outside consultant in the field of higher education.

The curriculum study will be made by Dr. Earl J. McGrath, executive officer of the Institute for Higher Education, Teachers College, Columbia University.

Principles upon which Muhlenberg may build or rebuild its curriculum will be established through the consultant's study, Dr. Henry M. Richards, dean of the college pointed out. He does not anticipate any great, significant changes. However, the study will point up curriculum strength as well as weakness.

**Ban . . .**

(Cont. from p. 2, col. 5)

speakers' policy had no immediate application to non-Communist individuals who have been involved in controversial speaker rights at the colleges.

Those involved include Malcolm X, a leader of the Black Muslim movement; William F. Buckley, Jr., editor of the **National Review**; and New York State Assemblyman Mark Lane, a Manhattan Democrat who had been indicted in Jackson, Mississippi, because of his part in a freedom ride.

It is not yet possible to tell what effect, if any, the official repeal will have on Communist speakers at the four city colleges. The issue is part of a large issue of what limits can and should be placed by college officials on speakers on campus.

**SOME OF THE ISSUE MAY BE** cleared up fairly shortly when a decision is reached in the case of Mr. Buckley and the **National Review**. The case, involving the refusal to allow use of a hall at Hunter College because Mr. Buckley's monthly magazine allegedly represents a partisan viewpoint, has been taken to the State Supreme Court.

**Grotto Gains National Status; Joins With Speleological Group**

Moravian Grotto has been awarded a membership to the National Speleological Society. According to the requirements of the N.S.S., eight members of Moravian Grotto have applied for and received national membership, and a constitution was written by Moravian Grotto and approved by the Society.

**VARIOUS DUTIES AND PRIVILEGES** are connected with this honor. The Moravian cavers will receive information on new exploring and scientific techniques and will be notified of caving events and new caves; they will be expected, from time to time, to participate in regional projects and to collect data on the caves in this area.

At the present time Moravian Grotto is participating in the Pennsylvania Cave Survey being conducted by the Mid-Appalachian region of the N.S.S. During the past few months Grotto members have mapped several area caves

and have attended the annual field trip meet of the MAR, near Cumberland, Maryland.

During the spring semester the members plan to finish surveying the caves of Lehigh and Northampton Counties and to assist Reading Grotto in mapping some of the caves in Lebanon and Berks Counties. Several exploring trips are planned including a several-day trip in June either to Virginia or West Virginia.

**A MORAVIAN GROTTA NEWSLETTER** is also being planned for the near future. Copies of the proposed letter will be sent to all Grottoes all over the country, and depending on finances copies may also be distributed to Moravian College students and faculty.

The semester will be a busy and interesting one, and all members of the Moravian College faculty and student body are invited to join in time for the spring semester.

**The Mail Box****High School Or College?**

To The Editor:

The methods college professors use to make a student apply himself should be different than those used in high school. Apparently not all teachers realize this, because students in at least one class have heard and seen the wrong methods being used.

Students heard the teachers voice conveying anger from the first word of the lecture, and soon one person was being singled out as an object of this anger. The class, not having done well on previous tests, was being warned by this painful example that they had better study for the exam.

If a student fails to obtain a decent grade, it is his responsibility to see the teacher and to try and discover what he has done wrong. It is not the teacher's duty to call the individual in for unsatisfactory marks. Neither is it the role of a teacher to goad the

student into studying by classroom sarcasm.

Even on the high school level a teacher acting in all fairness would never single out an individual and hold him up for ridicule before the entire class. This sort of action, witnessed in a Moravian classroom, does not reflect justice, consideration, or good teaching. Teenagers suffer in a situation like this, and an adult should realize that it brings only antagonism.

College students should want to learn, and college professors should, by organized and interesting lectures give them greater incentive for knowledge.

Ridicule causes nothing but resentment and stubbornness. It might be used in high school with a small effect, but it has no place in college.

back while attempting a layup, and had to be assisted off the court. They breathed a sigh of relief when he came back in with seven minutes left.

After jumping off to an 8-0 lead, the 'Hounds cooled off and the Dutchmen tied at eight. Once again Moravian spurted to a 17-12 advantage, only to lose it at 23-22. The Valley lead at halftime 33-30. During the first half, "Koz" went on an eight point tear, the last two of which put him over the 1,000 mark in his collegiate career.

At the outset of the second half, Lebanon Valley increased its advantage to as much as 12 points before Zavacky and Kosman led a spirited comeback which was culminated when Marsden looped in a long one-hander to put the 'Hounds into a temporary 61-60 lead. The lead went back and forth until Kosman fouled out with two minutes left. Despite a brilliant one-man effort in the waning moments by Zavacky, the game ended with the Valley on top, 74-71. Zavacky, who played the finest game of his career, finished up with 25 points and 18 rebounds. Kosman followed with 18, while Marsden and Pfeiffer garnered 11 apiece. Hi Fitzgerald led the Dutchmen with 20 counters, and was followed by freshman sensation Bill Koch and Art Forstater, who annexed 18 and 12 respectively.

**Hounds Meet Dickinson And Berg On Mats**

The Matmen of Moravian College face two tough opponents in Muhlenberg and Dickinson College after completion of final examinations. Both of these dual meets are away and promise to offer the Greyhounds stiff competition.

**LAST YEAR COACH KUKLINTZ'S** charges managed to squeeze past Muhlenberg by a 19-15 count in Johnston Hall. Returning letterman who will again be in action include Ollie Breinig 123 lbs., Tom Chuss 157 lbs., Bob Martin 167 lbs., and the always dangerous Charlie Kuntzleman 177 lbs. In last year's dual meet, Dick Schaeffer defeated Kuntzleman in a very exciting match.

The Dickinson match on January 31 should also prove to be interesting. The Greyhounds defeated Dickinson in last year's meet by a 15-9 score, but this year the Carlisle collegians appear more experienced.

Returning this year at 137 lbs. is Bob Gauntt, at 147 lb. is Bob Cero and at 177 lbs. John LeRoy, who may possibly shift weights.

Since many of the student body will be relieved of classes during this time these matches are taking place, it is hoped many will make every attempt to attend these matches and cheer the squad toward victory.
