Note: This sequence is subject to change.

Attendance Policy:

Unless there is illness or extreme family problems, I expect you to attend lab. The class is very large so please come on time and work quietly and efficiently. Switching sections isn’t allowed. Due to the nature of some labs, it will be impossible to take them at another time.

Requirements:

Bring your text to lab along with goggles and a good dissection kit. I will use handouts; it is a good idea to keep them in a notebook.

Grading Policy:

There will be a series of announced, and at times, unannounced objective quizzes at the beginning of each of labs. They usually will cover the previous weeks work. In addition there will be one large practical exam. The average of these grades represents 1/3 of the grade prior to the final exam.

Honesty Policy:

Read the statement in the student handbook and consider its message.

Additional Notes:

Eating, drinking, and smoking are prohibited. Microscopes, slides, and specimens are never to leave the lab.
