Moravian College Fall 2006  
EC 320  Course Syllabus  
Money, Banking and Financial Markets  

Instructor: Dr. James P. West, Professor, Department. of Economics and Business, Moravian College.  
Office: 215 Comenius Hall, Phone: 610.861.1381; e-mail westJ@moravian.edu  
Office Hours: M,W  1:00 – 2:30; T, 10:30 – 11:30 or by appointment  

Course Description: History and theory of banking; structures of commercial banking; bank management; money and capital markets. History of central banking, monetary theory and domestic monetary policy. Debt management and liquidity policy. Sources and uses of funds. Current international economic policies and programs to maintain economic stability, economic growth and other goals.  

Course Objectives: The purpose of this course is to provide you with a comprehensive introduction to the field of Money and Banking. Financial events dominate today’s business news and a clear understanding of the organization of financial markets and institutions is essential to all business and political decision makers. It is my objective to help you gain that understanding and to develop a lasting interest in the subject of financial economics. In addition to the material discussed in the text, the quickly changing financial environment will be monitored during the semester by using the Wall Street Journal and other financial periodicals. Specifically students will:  

• Understand the function and evolution of money and payments system  
• Understand the role of financial markets and institutions including the important role of financial intermediaries.  
• Understand and apply economic analysis surrounding security prices and interest rate determination.  
• Gain an appreciation of the role of Central Banks esp. the Federal Reserve System.  
• Understand the process by which the Fed devises and implements monetary policy  
• Utilize macroeconomic models to show the impact of money policy on macro variables  
• To become familiar with the international financial system, including an historical perspective, operation of markets, the evolution of institutions  
• To apply tools of analysis to study historical and current problems including early bank panics, the Great Depression, Stagflation, the market crashes of 1987 and 2001-2 as well as the contemporary economy.  

Required Texts:  
2). The Wall Street Journal  

(Revised 9/7)
Grading:
Attendance and active participation is required and will be incorporated into the class grade along with quizzes and homework. More than 3 absences (70-minute classes will be penalized 1 grade (+/-). Lateness to class is disruptive and counts as ½ absence.

There will also be four exams at 15% each, the Final Exam at 25% and 15% for class grade and “Revolutions in Finance (to be detailed in class). Exams must be taken as scheduled. The Academic Honesty Policy is followed for this class and is detailed in the College Catalog and Student Handbook. This syllabus is subject to change with notice.
