A true teacher never thinks his or her education is complete, but is always seeking to add to his or her knowledge. The moment a person ceases to be a systematic student he or she ceases to be an effective teacher.

Goals

1) Provide a framework for understanding the history of public education in the U.S.
2) Begin the process of becoming a “reflective teacher”
3) Develop a personal philosophy or vision for teaching
4) Begin to develop the skills necessary for analysis of educational issues and research
5) Gain a basic understanding of school governance and leadership as it relates to the philosophy of education
6) Observe and reflect on real learning communities through a field experience

Required Texts

Attendance

This course requires informed participation in the discussions so you are expected to attend every class with a basic understanding of the assigned readings or topics to be discussed in class. If you must be absent please try to inform me ahead of time. It is your responsibility to obtain material distributed in class or assignments given during missed classes. Missing more than three classes presents serious concerns about your ability to succeed in this course.

Absence is also not an excuse for missed work. If you cannot turn in work in a timely manner you should discuss this with me. Late work can be accepted depending on the situation.
**Academic Honesty**

The College’s position on academic honesty is clear. Written work must be the product of your own thought and effort. If the works of others is quoted or paraphrased in your papers, cite those sources with a standard (APA) citation (preferred) or MLA bibliographic notation. Ideas gleaned from discussions with others do not constitute plagiarism. Direct quotations from “experts” should be cited in standard reference fashion.

If a completed assignment is found to be plagiarized or dishonest, a grade of zero will be entered for that assignment and the Academic Dean will be notified in accordance with College policy. If you have any questions as to how to handle the materials of others’ please contact me.

**Field Experience**

This course requires a field experience. You will be going into the schools approximately four hours per week. This is a unique opportunity to see first hand what goes on in local schools and will allow you to make connections with your class work and the life of experienced educators. Successful completion of the field experience and your journal make up a portion of your grade.

**Course Schedule**

**Week 1 (Aug. 31)  Introductions**

Introductions, syllabus, field experience journals, discussion—What are your perceptions on the following questions?

1) What is the nature of history?
2) Why study the history of education?
3) What is philosophy?
4) What is thinking about “thinking”? 
5) What is “vision”?
6) What is a personal philosophy of education?

**Due:** The Final Project

**Assignments, Papers and Projects**

This is foremost a philosophy course and as such is a discussion based course. Informed participation is paramount to success in this course. Reading assignments need to be done before the classroom discussions. “Quick quizzes” may be administered before discussions about the readings and will be used to help determine your discussion grade.

The course requires Essays, a Teacher Interview, Position paper, Field experience Journal and Pathfinder. Details (Handouts) about how to complete each project will be provided in class.
Grading Rubric

Your grade will be based on the amount of points you are able to garner over the course of the semester and calculated as a percentage. The breakdown is as follows:

- Participation in informed discussions: 100 pts
- Essay assignments #1-5: 50 pts
- Teacher Interview: 50 pts
- Field Experience Journal and Satisfactory Rating: 50 pts
- Vision Position paper: 100 pts
- Pathfinder (final project): 100 pts
- Attendance: 150 pts (10 pts per class)

Total possible points = 600 points  Good Luck!
