**Course Description and Goals**

Latin 100 is offered as an introduction to the classical world of the Romans, their culture and language. Our goal is to make students proficient enough to take the first steps into the Latin language and to prepare them eventually to navigate the more complex waters of Roman culture and literature, purveyors of the wisdom and aesthetics of the ancient world.

In this course you will discover that Latin is anything but a “dead language,” and you will realize how helpful the knowledge of this subject will be in all your future academic and professional endeavors.

If your goal is the study of the law, it will train you to think in different directions concurrently; in science and medicine, it will give you some of the basic vocabulary that will facilitate your progress in those fields; in literature and history, it will enrich your aesthetic taste and linguistic facility.

In short, it will transform you from a simple human being into a humanist.

**Organization of the Course and Course Requirements**

The secret of success in this course is simple but absolutely essential: keep up with the daily assignments and never, repeat, never fall behind. Attend each class and complete all assignments. See your professor at the slightest hint that you are falling behind. Your instructor will work with you individually as needed. Do not delay seeking help. Latin is not difficult, but you must give it your constant attention.
As I mentioned above, barring exceptional circumstances, you are bound to attend all classes. In class, become a willing, even an eager participant. Never be afraid to make mistakes. If we knew it all, we would not be in this class. Class meetings are on Mondays, Wednesdays and Fridays. The professor will present the grammatical structures, guide you through the translating techniques, and point out the similarities between English and Latin (the majority of English words derives either directly of indirectly from Latin). Homework will be assigned daily and corrected in class the following day.

**Testing and Scoring Guide**

Grading will be based on class participation, homework completion, quizzes, tests and a final exam. Both quizzes and tests will be announced, but because of the nature of the subject, any previous material will also be the responsibility of the student. In the computation of the final grade, quizzes will be counted once, tests twice, and the final exam three times. The computation of the grades will be as follow:

- A = 93 – 100
- A- = 90 - 92
- B+ = 87 - 89
- B = 83 - 86
- B- = 80 - 82
- C+ = 77 - 79
- C = 73 - 76
- C- = 70 - 72
- D = 69 - 60
- F below 60

Finally, my teaching philosophy is based on the premise that teaching and learning, and therefore professor and students, are two sides of the same coin. Beginning today, we are embarking on a wonderful adventure that will illuminate for us the greatness of the ancient people whose language, culture and ideas are as alive and relevant in our time as they were long ago.
