Course Objectives:
Concepts of Fitness and Wellness: A Comprehensive Lifestyle Approach is designed to provide the cognitive and behavioral skills students need to adopt a healthy lifestyle-based on personal needs- that will promote lifetime health, fitness, and wellness. Rather than tell the student what to do, the course will provide the student with information to become a good problem solver/decision maker and to make informed choices about his or her lifestyle.

Required Textbook:

Course Requirements:
1. Class attendance and lab work is required: Students need to develop an alternate plan with the instructor in the event of illness prior to absences or immediately following class session missed
2. Preparation for each class is an expectation: Alternative or additional assignments may be required at the discretion of the instructor
3. Active participation is an expectation during class and laboratory sessions
4. Plagiarism is unacceptable: Group projects may be assigned where the group is responsible for all the activities and results

Method of Evaluation:
1. 35% class participation/attendance
2. 25% papers
3. 15% lab activities/assignments
4. 15% oral report
5. 10% quizzes – two will be given at anytime during the semester
