**Highly recommended reading:**

“When they [future teachers] begin to teach, they come into their classrooms with a sense of affirmation of the goodness and the fullness of existence, with a sense of satisfaction in discovering the unexpected in their students, and with a longing to surprise the world, their kids, even themselves, with their capacity to leave each place they’ve been (a school, a classroom, a community of learning) a better and more joyful place than it was when they entered it.”

Jonathon Kozol, educator and author of Letters to a Young Teacher

**Course description:**

Development of teaching and schooling in the United States since the 1840s. Includes current topics of concern in American education such as race and ethnicity, special education, and standards. After reading and discussing various views on teaching, students will develop a personal philosophy statement.

**Course objectives:**

1. Identify and examine various events and forces that have shaped and continue to shape American education.

2. Examine socio-cultural factors involved in American educational systems.

3. Analyze current educational issues and their relationship to current events and forces that affect education in America.

4. Research, develop, and present an historical investigation of key individuals/groups that played a significant role in developing public schools in America.
5. Explore one’s own perceptions, experiences, and reflections of schools in America.

6. Develop a personal philosophical statement on education.

**Attendance**

**Attendance is expected.** The issues being considered in this course require informed discussion and involvement. You are expected to attend every class with a basic understanding of the assigned reading or with questions to be raised about the reading. If you must be absent for some reason, please let me know ahead of time. It is your responsibility to find out what you missed in class and secure materials that might have been distributed or any assignments given in your absence. Absence is not an excuse for missed work. If circumstances arise that prevent you from completing an assignment when it is due, please discuss the situation with me. **More than 1 absence from class will result in a lowered grade (e.g. A- to B+), and more than 2 absences will result in a full grade drop (e.g. B to C). Lates to class will be noted and applied to the absence rule.**

**Academic Honesty:**

Your papers and projects are completed outside of class. This allows you to discuss your ideas with other members of the class; and to do the necessary reading and writing in the type of environment you find conducive. Your discussions do not constitute plagiarism, which is the presentation of someone else’s work as your own, even when the discussions produce points of view which have something in common with other students. Moravian College’s position on academic honesty is clear: For written work to be acceptable, its final form must be the product of your own thought and effort. Anything else is of no value as a measure of your effort and understanding, and will receive no recognition. If the work of others is quoted or paraphrased in your papers, cite that source with some standard bibliographic notation.

If a completed assignment is found to be dishonest, a grade of zero will be entered for the assignment, and the Dean of Academics will be notified of the action in accordance with College policy. Such an action would indicate a cynicism about learning inappropriate to being a teacher and would place your application to the teacher education program into serious jeopardy. If you have any questions about the College policy, consult the appropriate pages in the Moravian College Student Handbook.

**“Office” Hours:**

I will be available prior to and at the end of class. Please feel free to contact me for an appointment if necessary.
Requirements:

1. **Journal Entries-** 20%

   At the heart of every classroom is the teacher’s self. The evolution of that self begins the second that a teacher steps foot into a classroom. Therefore, examining one’s self is critical in examining how one manages, teaches, evaluates, and interacts within the classroom. Keeping a journal allows one to study the self. Being aware of the self encourages one to explore why do I teach the way I do? Why do I teach what I do? How do I interact with my students and why? The journal opens the door to view oneself in reflection and make changes for the better. Your reflections may be maintained in a notebook or on loose sheets of paper in a folder. Your reflections should express your thoughts about what you are experiencing from the class and from the assigned readings. This is a conversation between you and me. **These specific reflections should be about 2 pages, can be typed/double-spaced, or written legibly in blue or black ink.**

   **Journal Entry #1** - What events in my life have brought me to my current decision to pursue teaching? What sort of teacher do I hope to be(come)?

   **DATE DUE: Jan. 27, 2009**

   **Journal Entries #2, #3, #4** - Should reflect experiences within your placement

   **DATES DUE: Feb. 17, 2009, March 17, April 7 respectively**

   **FAILURE TO COMPLETE THE ASSIGNED LAB HOURS IN THE CLASSROOM COULD RESULT IN A COURSE FAILURE.**

2. **Philosophy of Education Statement** 10%

   This is the essay portion of the mid-term exam due in class on Feb. 24, 2009

   This should be about 2-3 pages examining how you view education. Examine your thoughts about education in general, students, teachers, discipline/classroom management, and curriculum. For the first “draft” you could need about 2-3 pages. Examine your views on teaching and learning in relation to the broader educational world you are entering. Ideas could come from assigned readings and from your experiences in the field. Over the next few years as you evolve in your experiences, you will want to clarify and state your philosophy of teaching in a succinct one typed page essay.

   **DATE DUE: Feb. 24, 2009**
3. **Mid-term Exam**  
15%

This test will include a combination of matching, identifications, and true/false questions from readings and class discussions to this point.

*DATE: Feb. 24, 2009*

4. **Classroom Management Plan**  
10%

This will be about 4-5 pages of information that you will create as you envision teaching your own classroom. You will provide the necessary elements such as communication, curriculum, grading, discipline, etc., needed for producing a classroom management plan.

*DATE DUE: March 31, 2009*

5. **History of American Education Lesson Plan project & Presentation**  
20%

You will bring one idea for a lesson plan to class that involves the topic of American Education. Throughout this course, you will create the lesson plan, provide modifications to the lesson plan for students with special needs as well as modifications for technology. The lesson plan will be aligned with State Standards and you will also include a form of assessment for your topic. You will teach the class about this particular event, person, or concept in the history of education in the United States.

*DATE DUE: April 14, 2009*

6. **Letter of leadership**  
10%

You will prepare a letter of interest or inquiry to a school, district, Department of Education, or professional organization, or congressman/woman, about a concern or interest that you have regarding the status of education today. This will count for the essay portion of the final exam. The letter should be at least 5 paragraphs.

*DATE DUE: May 5, 2009*

7. **Final Exam**  
15%

This test will be a combination of matching, identification, and true/false questions involving the assigned readings, class discussions, and group presentations since the mid-term exam.

*DATE: May 5, 2009*

**General Considerations & Expectations:**

1. **Attendance is expected.** The issues being considered in this course require informed discussion and involvement. You are expected to attend every class with a basic understanding of the assigned reading or with questions to be raised about the reading. If you must be absent for some reason, please let me know ahead of time. It is your responsibility to find out what you missed in class and secure materials that might have been distributed or any assignments given in your absence. 2. **Participation is expected.** In class, you will be expected to share your insights and ask questions. You will expected to participate in group and individual activities. The more you put into the class, the more you will take away with you when you leave!

3. **All assignments must be submitted on the assigned due date.** Assignments turned in late will be subject to penalty or can be refused. Due to unforeseen circumstances, the course instructor may make exceptions. Please come prepared to class with the assignments ready.
4. **Be respectful.** Please be on time for class and come to class prepared with your materials. Listen to others and discuss; however, acknowledge that each individual brings with him or her valuable experiences to share. We won’t always agree with one another, but we need to respect one other’s right to share opinions.

5. **Please turn off all cell phones.** Our class time should not be interrupted with a cell phone ringing/text messaging. Make sure they are turned off prior to class beginning. Snacks and drinks are permitted as long as you clean your area before leaving.

HISTORY OF EDUCATION/LESSON PLAN & PRESENTATION

Why do this project?
Active agents shape the American educational system. Central educational ideas have flourished over time and continue to guide the educational system today. Institutions inherited have not always existed; but rather they have been developed and re-developed, and continue to evolve. Therefore, this lesson plan assignment enables you to explore an historical aspect of the American educational system and share your inquiries with us in a group presentation format that allows you the opportunity to teach the class. When you “know” the history behind something, then you better understand why things are the way they are, and you will come to know how you can be more of a productive agent of change for improvement!

Topics could be events, movements, people, or concepts. Some ideas to get you thinking:

<table>

<tr>
<th>Horace Mann</th>
<th>Reconstruction</th>
<th>religious education</th>

<tbody>
<tr>
<td>Jane Addams</td>
<td>Civil Rights</td>
<td>Pennsylvania schooling</td>

<td>Indians, non-Protestant religious groups</td>
</tr>
</tbody>
</table>

Research the topic and prepare a lesson plan to teach your classmates about this particular topic. The task explored could be the role of the specific individual, event, or philosophy, etc. that has contributed to the evolution of this historical aspect of education.

You must compile a handout to provide to the class. A convenient way is to outline your information. The purpose of the handout allows the class to follow along with you as you present, provides a space to note questions or comments following the presentation, and can be used as a future reference tool for further educational research.

The presentation will be 10-20 minutes. Questions and comments will be permitted for about 5-10 minutes following the lesson.
Classroom Management Plan Checksheet

1. Take notes about your experience:
   • What is happening in the room BEFORE class starts?
   • What are students EXPECTED to be doing before class starts?
   • What is the teacher doing before class starts?
     a. How does the teacher begin the class?
     b. What misbehaviors (verbal or nonverbal, disruptive or passive) do you notice?
   • What is the lesson topic for today?
   • How does the teacher use the class time to teach the lesson objective?
   • What specific strategies do you see the teacher using?
   • How would you teach the same lesson differently?
   • Explain why or why not the students are on task.
   • What interruptions occur while you are there?
     a. Does the phone ring? Does the PA system go on? Is there a fire drill?
   • Note the last 10 minutes of class:
     a. What are students doing?
     b. What is the teacher doing?
     c. What was the closure?
     d. How is homework assigned? Is it assigned?
   • How does the teacher dismiss the students?
   • If this was your classroom and you were the teacher, what would you have done the same? What would you have done differently?
   • Recalling some of what you have already shared in this course, what would you hope to do in your classroom?
