Course Objectives:
Concepts of Fitness and Wellness: A Comprehensive Lifestyle Approach is designed to provide the cognitive and behavioral skills students need to adopt a healthy lifestyle- based on personal needs- that will promote lifetime health, fitness, and wellness. Rather than tell the student what to do, the course will provide the student with information to become a good problem solver/decision maker and to make informed choices about his or her lifestyle.

Required Textbook:
Interactive CD-ROM: HealthQuest

Course Requirements:
1. Class attendance and lab work is required: Students need to develop an alternate plan with the instructor in the event of illness prior to absences or immediately following class session missed
2. Preparation for each class is an expectation: Alternative or additional assignments may be required at the discretion of the instructor
3. Active participation is an expectation during class and laboratory sessions
4. Plagiarism is unacceptable: Group projects may be assigned where the group is responsible for all the activities and results

Method of Evaluation:

Syllabus for PE 107.2 Concepts of Fitness and Wellness

Personal Wellness Plan
* Due March 10th in class (will not except email papers)
* Length of Paper 1-2 pages typed double spaced and a minimum of 350 words
* Graded on content of material

Wellness is defined as the integration of many different components (mental, social, emotional, spiritual, and physical) that expand one’s potential to live and work effectively and to make a significant contribution to society. This paper should be about you.

Write a lifestyle plan on how you are going to change/improve one component of your wellness.

* In your introduction, explain how wellness affects your lifestyle and briefly assess your current wellness level by reviewing the Wellness labs you completed and topics presented in class (i.e. nutrition, stress, use and abuse of alcohol, tobacco, and drugs, std’s, cancer, and diabetes.)

* Exam your labs, family history, and lifestyle risk behaviors that affect this component. Explain how positive and negative factors may affect how you choose to improve upon this component of wellness.
