Six-Day Study Plan

This plan provides a basic guide for exam preparation. Use this as a framework to individualize your own study plan.

Day 6
- Determine what material you will responsible for on the test.
- Divide the material into 4 equal parts; A, B, C, D
- Gather notes, questions and/or problem sets or old exams.

Day 5
- Review all materials in part A.
- Make concept maps to help you visualize the material if you are a visual learner. (Sample concept map on back.)
- Recite key material in your notes aloud if you are an auditory learner.
- Quiz yourself by answering questions aloud or writing out the answers.
- Redo problems! Don’t just review them.
- If you have questions about the material, meet or e-mail your professor, tutor, or classmate right away to get your questions answered before you move onto the next part.

Day 4
- Repeat directions for Day 5, this time reviewing all materials in part B.

Day 3
- Repeat directions for Day 5, this time reviewing all materials in part C.

Day 2
- Repeat directions for Day 5, this time reviewing all materials in part D.

Day 1
- Review parts A, B, C & D by using concept maps or key material in notes.
- Determine time and place of the exam.
- Get a good night’s sleep. You can rest easy since you are ready for the final.

Day of Test
- Eat a healthy breakfast/lunch.
- Get to the exam early and get a good seat.
- Think positively during the exam. Good Luck!
